Above is pictured the new \$225,000 office building being constructed for the W. E. Reid Development Co., at 800 S. Adams. Completion is planned for next June, said Hamilton H. Paterson, president. It will be two stories high, 96 feet fronting Adams, 57 ft. in depth. It will be made of steel, concrete and brick, with special porcelainized aluminum panels on its Adams front. THE AREA between the windows will consist of precast, reinforced panels with mosaic-like facing. Multi-zoned heating and air conditioning will be installed throughout.
