Professor of Astronomy Speaks at AAUW Luncheon

Dr. Helen Dodson Prince, member of the Birmingham branch of AAUW, will speak on "Solar Photography" at the group's monthly luncheon, 12:30 p.m., Nov. 11.

A professor of astronomy at U. of M. Dr. Prince is on special assignment—doing research in the field of solar physics at the McMath-Hulbert observatory on Lake Angeles in Pontiac.

DR. HELEN D. PRINCE

GIFT OF THE LATE Francis C. McMath and his son, Robert R. McMath and of the late Judge Hulbert, the observatory was started as a private venture at the McMath's summer home on Deer Lake, then moved to Lake Angeles in 1929.

Given to U. of M. in 1930 its expansion has continued under the cooperative administration of the original founders and the university.

THE McMATHS were civil engineers who enjoyed photography as a hobby. Judge Hulbert was well informed on the astronomical aspects of the moon.

The application of motion picture methods to astronomical photography was pioneered at this observatory and U. of M. is now considered one of foremost authorities on the sun.

Dr. Prince is a graduate of Goucher college with an MA and PhD from the University of Michigan. She also holds an honorary degree from Goucher college.

She has taught at Wellesley and Goucher colleges and at U. of M. She will be introduced by Mrs. Orren Mohler, wife of Dr. Orren Mohler, who is also doing solar research at the observatory.
