Cadillac

The Fifty-fifth... and the Finest!

It was shortly after the turn of the century that the first Cadillac car—"the automobile deliberately built to the highest standards it is possible to enforce on the production of a motor car"—made its appearance.

Every year since—save for a period when Cadillac devoted its energies to the national defense—a new interpretation of this unique goal has been presented to the world's motorist.

The superlative motor car illustrated above

is the fifty-fifth in this unprecedented succession of distinguished automotive creations.

And it is, far and away, the finest and the noblest Cadillac of them all.

Never before has Cadillac artistry created such elegance of form and line. It has a commanding presence that is uniquely Cadillac.

Never before has Cadillac engineering produced so abundantly. The car is smooth and quiet to a degree that almost challenges belief.

Never before has Cadillac design and craftsmanship provided such interior luxury. And the complement of conveniences and appointments has never been more satisfying.

No matter how many of the fifty-five Cadillacs you may have owned and enjoyed over the years—you still have a wonderful experience ahead of you in this latest "car of cars."

We suggest you see and drive it very soon. And we hope you will come expecting great things.
