The Revolutionary

CORVAIR

by Chevrolet

with the engine
in the rear
where it belongs
in a compact car!

the only American car with an airplane-type horizontal engine!
the only American car with independent suspension at all 4 wheels!
the only American car with an air-cooled aluminum engine!

The rumors about this one were right—but they didn't go far enough. Because here, for the first time, is a truly compact American car that retains the ride and 6-passenger comfort you're used to in a big one. The key to this small miracle: America's only REAR-MOUNTED ALUMINUM ENGINE—a revolutionary 6-cylinder power plant that combines compactly with the transmission and drive gears in one lightweight package.

You'll get up to 30% more miles to a gallon and—because this engine is AIR-COOLED—you'll never need antifreeze. This combined with A PRICE YOUR BUDGET WILL APPRECIATE make the Corvair the most practical automobile on wheels. Visit NORTH CHEVROLET today—and see what a wealth of engineering a modest amount of money buys! Corvair rivals much more costly cars in the poised, unruffled way it rides.

Oakland County's only Chevrolet
dealer with Nite Service for
your convenience.

'60 OLDS

THESE DAYS NOTHING LIKE A NEW CAR... MAKE YOURS A NOBLY BORN OLDS

**Come for the quietest ride
you've ever tried . . . a Quadri-Balanced
Ride in a '60 Rocket!**

What is Quadri-Balanced Ride? It's the smoothest, steadiest and quietest ride in Oldsmobile history . . . and you owe it to yourself to try it out on the road! This dramatic advance is the result of new "ride-engineering" introduced on the '60 Olds. Vibra-Tuned body mountings of live-action rubber that are up to 40% thicker have been electronically located at the points of least vibration on Oldsmobile's Guard-Beam Frame to insulate the body from road noise and harshness. Combined with new nylon shock absorbers there's an amazing and wonderful difference . . . the quietest ride you've ever tried! Try a '60 Rocket on the road today!
