

'Old World' Artist Displays Works

Cass Hachlinski, one of the few in the Detroit area who creates art objects by hand-blowing glass, will display his works at the Tisdale Office Equipment, Miracle Mile Shopping Center, Bloomfield township, from 10 a.m. to 9 p.m. till October 17. He recently spent some time at Mackinac City for new ideas and inspiration. Tisdale workers are clearing a large part of the store to make room for his display and equipment.

BUSINESS BRIEFS

Name Villwock Research Eng. At M.A. Co.

Richard P. Villwock, 778 Ann, Birmingham, identified for years in the field of chemical and metallurgical research, has been appointed as research engineer of Michigan Abrasive company. He is a registered professional engineer in Ohio, and holds bachelor degrees in engineering and education from the University of Toledo, and painting.

"Appointment of Mr. Villwock was made in conformance with our policy of increased emphasis on research not only for new products but also refinement of our present full line of coated abrasives," Max C. Jones, president, explained in announcing Villwock's position.

ALTHOUGH YOUNG in years, Villwock has been engaged in research work for three well-known companies. He began his career in the research center of Libby-Owens-Ford in Toledo.

Next came a position in the metallurgical research section of Electric Auto Lite, also of Toledo. He then became associated with Midwest Abrasive Co., of Desoto, for nine years, as research director.

He is a member of American Chemical Society, Ohio Society of Professional Engineers, National Society of Professional Engineers and Toledo Engineering Society.

Staperfene Joins LaRue, Cleveland

Appointment of G. R. Staperfene, 21228 Midway, Southfield, to the creative staff of LaRue, Cleveland, Inc., Detroit advertising, public relations, and marketing agency, has been announced by R. F. LaRue, president.

A native Detroit, Staperfene has been in the advertising field since 1950, and most recently served with MacManus, John & Adams.

He is a former student at the University of Detroit, and an Army Air Corps veteran of World War II. He makes his home in suburban Southfield.

Are you thinking of buying a new house? Then read the "For Sale—Houses" columns on the Classified Ad pages of this week's Eccentric.

On New TV Show

M. J. Donnel, 771 Wallace, Birmingham, public relations director of Champion Home Builders Co., will appear on one of the "New Horizons" television shows to be announced at a later date. He will be interviewed by Drew Pearson (right) on the new television program that is supposed to make its debut within the next two weeks.

My Bob says...

"Our oil heat furnace is one of the smartest investments we've ever made."

"I don't know a British Thermal Unit from a gyrocompass. All I know is that our oil heat is clean and economical."

"Bob says the best thing about our oil heat is that it's safe—and it's completely automatic too. Did you know that our oil furnace doesn't even have a pilot light? Bob says that's because it's fired by an electrical ignition system that's practically foolproof and with our fuel dealer filling our storage tank automatically, we never have to worry about a thing, especially pressure drops, when the weather gets cold. My Bob knows just everything."

Your Oakland Oil Heat Council doesn't know everything, but they do know everything about heating a home with fuel oil. If you're planning to install a new furnace this season, it will pay you to contact a member of the Oakland Oil Heat Council, you will see his symbol everywhere. He will advise you as to the many advantages of heating your home with fuel oil.
