Introducing the New-Size Ford... the 1960 Ford Falcon

Meet the New-Size Ford—the Falcon! Here's a car with plenty of room for six big adults and all their luggage. It's sized to handle and park like a "small" car... powered to pass and climb like a "big" car... and built like no other car for savings!

It gives you up to 32 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.—a grueling demonstration climaxing Ford's 3 years of development and testing.

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column—not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Falcon's low, low price. See it at your Ford Dealer's... and see the difference!

Ford savings, however, only begin with a low price. You save still more with engines that thrive on regular gas and save up to a dollar on every tankful... a Full-Flow oil filter that lets you go 4,000 miles between oil changes... Diamond Lustre Finish that never needs waxing... aluminized mufflers that normally last twice as long as conventional types... a new, safer, Truck-Size brakes that are the biggest ever in Ford's history... and new self-tread, Tycex cord tires that run quieter, last longer.
