Autumn is Tasty Apple Pie Time!

Luscious wedges of fresh-baked apple pie only minutes from the oven . . . m-m-m-m. can't you just smell it now? An autumn favorite if there ever was one! You can make it an extra special treat by sprinkling grated cheese over the sliced apples before placing top crust on the pie. This little trick brings out a delicious, tangy flavor that empties pie plates like magic! And from apple pie to complete family meals, we recommend the wonderful cooking qualities of a modern Gas range oven. Perfect baking and roasting requires controlled, even heat, the kind you get in a Gas oven. The exact cooking temperature you need is accurately held . . . your cakes, pies, gas roasts cook evenly to a golden brown goodness. Gas range ovens are automatic too! You set the controls for the time and temperature then hold a uniform if you please. The oven turns on, holds a good temperature, and turns off all by itself. More good cooks agree, there's nothing quite like a Gas range oven for perfect cooking and convenience. Your Gas Dealer will be happy to tell you today about all the advantages of modern Gas cooking!
