## ECONOMY PROVED . . .

- \* FOLD-DOWN REAR SEAT . . . that opens 17.6 cubic feet of storage space besides what's in the trunk. Standard in every model, two- and four-door.
- \* FOUR-WHEEL INDEPENDENT SUSPENSION . . . that gives each wheel its own coil spring and its own knee action. RESULT: a smoother, flatter ride.
- \* REAR-ENGINE TRACTION . . . that comes with the engine's weight bearing down on the rear wheels. Why be a stick in the mud (or snow or slush) with anything else when you can dig in and go with Corvair?
- \* NO FUSSING WITH ANTIFREEZE . . . or water or radiator repairs or water pumps. Corvair's air-cooled engine has nothing to do with 'em.
- \* PRACTICALLY FLAT FLOOR . . . front and rear. Room for your feet, even if you're sitting in the middle. Who but Corvair remembers your feet?
- \* ALMOST INSTANT HEAT . . . from an airplane-type heater. You don't have to wait for the engine to warm up—Corvair's heater warms in 30 seconds. Optional at extra cost.
