WHAT DOCTORS SAY ABOUT

Blood Pressure

• T.B. And Marriage
• Menarche
• Snakebite

Q. If high blood pressure is
lowered will a person live
longer?

A. There are a number of meas-
ures, (some involving new and
effective drugs) by which blood
pressure can be lowered. It can
now be said that patients in the
middle-age group and younger
who have moderately elevated
pressure can anticipate a some-
what longer life if they respond
to these pressure-lowering meas-
ures. In older people the lowering
of blood pressure alone, unless it
is extremely high, would not be
the chief or only consideration in
prolonging life.

Q. I have arrested tuberculosis.
Is it safe for me to marry?

A. It would probably be safe for
you to marry provided your doc-
tor agreed and informed you of
the necessary considerations to
prevent flare-up of the disease.
Both parties should also be
thoroughly acquainted with the
hazards of reactivation of the
disease as well as exposure of
possible children.

Q. At what age will the meno-
pause occur in a woman who
started menstruating at 12½?

A. It is often recommended, but
Army doctors, experimenting with
animals, found that suction not
only failed to remove enough
venom to do much good but that
the procedure may even hasten
the spread of the poison. The
pros and cons can be cleared up
by further experiments.

SATURDAY BANKING IS LOCAL BANKING

In a suburban community like this, the man of the family is often away at work during weekday banking hours. Personal and family banking needs are put off 'til the weekend.

That's why you meet folks on the streets Saturday morning whom you never seem to see at other times. It's the natural time to attend to errands which accumulate during the week. It's friendly and sociable to meet people in town Saturday morning, and it's a good time to do your family banking.

That's why we are open a full three hours every Saturday morning. It carries out the spirit of "The Village Bank". It represents community service tailored to your individual financial needs.

We think Saturday banking in a suburban community carries out the traditional American way of life. It's a time when our doors should and will be open to serve you.

Come in to see us this Saturday!

Our New Year's Resolution...

Like most people we have always made a New Year's Resolution. We have never changed that resolution since the first day we started in business—it is simply this:

"We will give every client's account our Personal Attention, regardless of whether his portfolio is large or modest in size. We will try to invest each client's funds as we would our own, giving careful consideration to his requirements."

Many happy returns for the coming New Year.
