Also Stores in: Detroit, Pontiac and Grosse Pointe

Few persons go through life without making a variety of mistakes, some of them innocently made, too. We may be grateful that deliberate, malicious "mistakes" are in the large minority . . . Thus proving the inherent decency of most human beings. But when an innocent mistake has been made, should it not be corrected? If another has been hurt, why not a quick and sincere apology?

## Talks on Careers At Seaholm High

Mr. W. L. Thom, well-known vocational specialist and world traveler, will address students and parents at 2 and 3 p. m. on Tuesday, Feb. 2, at Seaholm high school.

"Career planning will be his topic. He will show young people what is required for success, based on his 22 years of experience as a vocational specialist with schools and industry.

His appearance in Birmingham has been arranged by Melvin Koch, local representative of the DeVry Technical Institute in Chicago. Mr. Thom will discuss electronics and other expanding career fields.

## FOR AND ABOUT TODAY'S YOUTH

### Marian Hi

### New Student Arrives From South of Rio

by Carol Jurica

Last Tuesday, Marian received a pleasant surprise. Concepcion Canulio, a lovely 19-year old Mexican girl has joined our student body. Mrs. O'Donnell introduced her to us and told us about Concepcion's homeland, Mexico. Cota (her nickname) is staying with

Mrs. O'Donnell at her home near the school on Lincoln Drive. Though Cota can't speak, read, write or understand English to any extent, she has a sparkling personality, which draws friends to her like a magnet. Cota always has a smile for everyone, and is very friendly. Marian will do its best to make

Cota feel at home, though her real home is about 2,500 miles away. As soon as Cota learns English, this writer will try to interview her for you . . . and she ought to learn quickly at Marian!

This year has been dedicated nationally to the "displaced person." Marian, appropriately, is preparing programs, plays, etc. in honor of the theme. Since Marian's freshman class is divided into five sections, five different events will be presented.

For instance, section one is holding a television program, based on "You Are There," which will show the causes for people leaving their countries (government, social, or religious reasons) and the problems they meet when they arrive in the "land of the free."

Other sections will do such things as plays, debates and panel discussions. The programs will begin the week of Feb. 1, and are being supervised by Sr. Mary Aquinas, speech and history teacher.

### Young Achievers Have Their Week

National Junior Achievement Week . . . off to a running start next Monday when local miniature Junior Achievement companies and employees play host to stockholders, parents, friends and the public at an Open House-Sales Jubilee. Other highlights of JA Week (Jan. 31 - Feb. 6) are a Presidents' banquet Feb. 5, with Junior Achievement's national president Edwin H. Mosler, Jr. as principal speaker and the annual SNO-BALL to be held Feb. 5 at Masonic temple. Miss Junior Achievement of 1959 will be selected. The Birmingham Business Center is at 177 South Woodward.

### Proved Point AND Raised Money

Once again the BHHS-Hi-Y, an organization of high school boys, accomplishes a first in the way of school functions. In accordance with the present March of Dimes, the Hi-Y backed a drive which netted from student contributions nearly \$150 in two days.

Never has the student body responded to the March so readily and generously. Here is another indication that the teen-age population is serious and responsible when given the opportunity.

As part of its goal, the Hi-Y members are attending different places of worship in the area. Already visited by the boys are Presbyterian and Roman Catholic, but the list grows every Sunday.

On the more scholastic side of the week, students tactically prepared for finals, which were administered last Monday, Tuesday and Wednesday. Results will be made known next Wednesday, when report cards will be distributed. In the meantime, everyone (except the teachers) are resting today and tomorrow, preparing for the big push of next semester.

The math and science clubs held meetings last week in an attempt to further the cause of extracurricular knowledge. The usual small but interested groups met, in one case to dissect a fish and study its anatomy, in the other to discuss spherical triangles and argue quietly over certain problems.

The Science club is advised by Mr. Steven Velkoff, and has just completed a survey of astronomy. Interested students are branching off into more intense work therein.

Here and there: at long last the

### Old Glory Still Brings 'em Over

Here's news about the drive to bring a foreign exchange student to Bloomfield Hills high school next fall. Of the needed \$1000, only \$600 is now in the fund.

In an attempt to realize the goal of a student from another land, the school Student Council is now selling the new 50 star American flag. The flag measures 3 ft. by 5 ft. and comes with a six-foot staff, gilded ball, and brace to attach the staff to a wall.

Made for outdoor displaying, the entire set sells for only \$5. Those interested may contact the high school or Mike Zweig, 4640 Pickering Road.

"Help Bloomfield Hills bring an exchange student to the high school, and at the same time get the new 50 star flag, the only thing that every American needs, and that so few have," the student said.

Here is a truly compact, economical American car that retains the ride and 6-passenger comfort you're used to in a big one. The key to this small miracle: America's first and only rear-mounted aluminum engine—a revolutionary 6-cylinder power plant that combines compactly with the transmission and drive gears in one lightweight package. It works small wonders with mileage and—because this engine is air cooled—you'll never have to fuss with antifreeze.
