FASCINATING FACTS ABOUT NATURAL GAS

Mother Nature's Stored Sunshine

Artfully and deceptively, billions of years ago, Mother Nature concealed her treasury of "stored sunshine". She carefully guarded this wealth in deep, underground storehouses—vaults of sand and stone. How successful she was! Man existed a half-million years before he discovered this miracle fuel, Natural Gas. Then it was nearly always in hard-to-reach spots—mountains, deserts, swamps and sea.

Today the tables are turned! This treasured "stored sunshine" is used today as a wonderful substitute for Mother Nature. So longer is man at the mercy of the weather. Natural Gas provides comfortable home heating in the winter and cooling in the summer. Rain or shine, the automatic gas clothes dryer "sunshine dries" your laundry. You can count on this "silent servant" always being on the job!

"The best scientific knowledge and modern devices of man are constantly uncovering more and more reserves and benefits of Natural Gas. Call or write Consumers Power Company to learn how Natural Gas can cool as well as heat your home; can serve you in so many ways.
