It's Time To Worry About Lions

Now that the Detroit Tigers have regressed beyond worry...

One thing about Detroit's teams...

The Tigers struggled into oblivion before the Fourth of July...

Example: The players may have trouble figuring out which beer they're supposed to drink...

THAT FIRE-BREWED stuff and another one that says it's the favorite of the Great Lakes country...

Dizzy's cool, refreshing favorite isn't distributed in these parts yet...

In the meantime, how's a football player to know which brew he's supposed to order?

This could be the most serious drinking dilemma facing the Lions since Bobby Layne left for Pittsburgh...

Mrs. E. L. Goddard, 86 1/2 Madison, Birmingham, Michigan women's golf champion...

Then there's the loss of John Robinson, the Louisiana state...

But the loss of Robinson shouldn't matter much...

Mrs. Goddard admits she isn't a long hitter...

Rounds of 18 holes will be played the first day, July 11...

Mrs. Goddard, who's been golfing for 30 years...

Big Daddy state coaching staff apparently instructed Roger in the finer points of football line play...

Thus, Roger will start postgraduate work with the Lions...

THEN there's Bob Schultz, a 250-pound center from Notre Dame...

Schultz also is an airplane pilot...

Michigan women's golf champion, Mrs. E. L. Goddard...

After sealing the ship's side and vaulting her rails, the energetic skipper...

THE CAPTAIN makes the Aquarama Detroit-Cleveland run at least once a day from June to September...

HOWELL ALSO owned two freight ships which he chartered out. He hopes to go back into business for himself when he retires...

As captain, the agile Howell not only gives commands, but pitches in and works right along with his 153-man crew...

"I want to know everything that happens on this ship," he said. "Otherwise I may not be able to handle a calamity if it should arise..."
