

A Theatrical Haven Hidden in the Hills

Classes are fun, when you're out in the sun.

If there's no classroom for you, a quiet meadow will do.

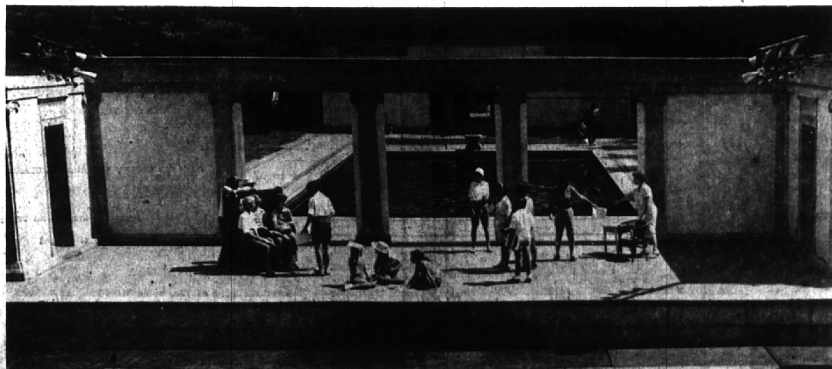

"A little large in the rear, but it looks good from here."

The kids have a chance, to learn how to dance.

When it's pantomime time, the kids really shine.

When the readings are done, the stage work's begun.

The act of exaggeration, if done without malice or injury, may be just a person's way of satisfying some inner feeling of limitation. He may not receive all the praise he is entitled to from his friends, so his ego is supported by "stretching" the facts, especially if they boost his morale. There is a great deal of difference between mere exaggeration and falsehood, or lying.

SECTION B

Why Mutual Funds?

Almost everyone is aware of the old saying, "Two heads are better than one." When you invest in a Mutual Fund, many times more than two heads watch your investments and maintain constant supervision of the entire portfolio.

When you own one or more shares in a Mutual Fund you own a part of many American corporations, and are putting your money to work in widely diversified fields.

Why not call either of our offices and let one of our representatives show you how you can become an owner in a Mutual Fund. There is no obligation, of course.

More and more folks are coming to us for advice on improving their lawns through an easy-to-follow Scotts Program. Come in anytime. We'll be glad to prescribe the correct Scotts Program for your lawn.
