

## *“Women Are All Alike”*

... when it comes to Daly Brothers Furniture, that is! Nothing, but nothing, pleases a man more than a wife who knows how to save on quality furniture ... and a budget that's beautifully balanced. By giving them both, Daly Brothers has kept thousands of husbands happy. You'll like the way we do business ... you'll like the selections ... you'll like the newest colors, fabrics, wood-tones and craftsmanship in traditional, provincial, colonial, contemporary and modern designs. Where else in the whole wide world can you see the world's finest furniture in such magnificent decorator settings? Where else but at Daly Brothers ... furniture with a future.

Why don't you come in soon and "browse around" and be able to do just that without pressure or persuasion. Talk to one of our professional interior decorators (they're excellent listeners). Ask about the construction of the merchandise, or how long it will wear, and why ... ask for ideas on the style and color harmony that will blend with the settings in your home. These and many other facts must be important to furniture buyers if they are to make wise purchases. Start right from the beginning with Daly Brothers furniture ... and discover the difference ... the best has to be different. Convenient terms, of course.

*Daly Brothers Furniture*
