

*Concerto  
for  
Furniture  
Lovers!*

Are you in tune with the times? Have you been to Daly Brothers Furniture lately? Why! We're just brimming over with fresh ideas for your home. Like the newest colors, fabrics, wood-tones in traditional, colonial, provincial, contemporary and modern designs. In over 13 years, we've never played second fiddle to any passing decorator fads. Our knowledge and know-how of selling quality furniture . . . and quality furniture only . . . have made us one of Michigan's most preferred sources for home decoration. Why don't you come in soon and "browse" around. And be able to do just that without any pressure of persuasion. Talk to one of our interior decorators (they're excellent listeners) . . . ask for ideas (try and stump them) on the style and color harmony that best express your own individual tastes. No matter what decorating tune you play . . . we could make such beautiful music together.

"Like, we're in  
tune with  
modern  
living!"

*Daly Brothers Furniture*
