Ways Library

(Continued from Page 1-E) of the Shepherd King, will be three brief talks. Speakers are J. C. Rohard, township supervisor, Jack Shuler, well known for his work in behalf of the community's children, Irwin Cohen will represent Messrs. Cohen, Citron, and Zuckerman, donors of the initial gift of land for the library.

HOMES ARE simple reinforced concrete and usually house more than one family, in multiple units. Ielanders take pride in owning their own apartments and only the well-to-do own single homes, usually outside of town.

Natural hot water solves the heating problem; the country is speckled with artice and extinct volcanoes. Early houses were built of turf and rock with wood gables. We looked at pictures of wild horser, of puffins which nest by thousands on the cliffs, of artice and whisper swans and wondered how she liked our country.

"It's mine, too, now," she smiled, but it IS hot in summer.

THE PROGRAM will conclude with a benediction by the Rev. Stanley Nileski of St. Mary's college, West Bloomfield township. Book circulation figures exemplify the growth of cultural and educational life in the township. In the year ending March, 1960, a total of 61,194 books was taken out as compared to 35,777 for the same period, ending March, 1956. The number of new patrons for the identified dates increased from 722 to 1211.

Arrangements for the ceremony were made by Madeline Winston City, Claude Sprank, Arthur Mowrey, Richard Freund, Henry Moses as well as Mrs. Warren. All are board members.

Library Requests Financial Aid

SOUTHFIELD.—Southfield library board met with six members of the city council last week to consider the board's request for an extra \$7,000 from city funds to purchase books.
