## *It's what a store does that counts!*

It's not what a store says that counts. It's what it does. We don't talk quality. We have it. We don't promise the best selections in traditional, provincial, colonial, contemporary and modern designs. We stock it. Our platform is simple and to the point. Fair dealing. Fair prices. For 43 years, Daly Brothers have been one of Michigan's most preferred sources for the best of everything in home furnishings. Our professional interior decorators will be glad to discuss (take as long as you like; we're open three nights for your convenience) any problem you have to best express your own individual ideas. Come in and browse around . . . look to your heart's content . . . see the difference in quality furniture. The best has to be different. The best has to be Daly Brothers Furniture. Convenient terms, of course.
