## Memo From Mulholland's

In our men's department, we have begun to receive our spring line of Dickie's sportswear. Our spring slacks (casual) come this year in all the newest shades. For men and boys, we have polished cottons in chocolate brown, charcoal grey and silvertan. Olive, too, in ivy league styling, and even continental style for men in olive. The fine new Hickok line is now in stock.

Fashion note: gold is the latest color for spring, with white and olive also strong. See you next week.

Frank Mulholland

# BUSINESS BRIEFS

## Birmingham Clinic Plans To Expand

James Clark Moloney, MD, executive director of the Birmingham psychiatric clinic, announced the planned expansion of the clinic's facilities at 240 Daines.

The clinic is one of the foremost centers in the area for the program which deals with troubled adolescents as well as college students. One of the clinic's treatments is arranged and encourage a mutually acceptable outlets for the patient's hostility with an opportunity to improve his sense of self-esteem.

JUDO, UNDER the direction of Louis Farukawa, a black belt holder, and firearm instructions by Richard Krafe, are among these treatments. The clinic will be supported by a staff of psychiatrists and consultants. Dr. Eugene T. Donovan, an assistant executive director, Drs. Jack McIntyre and John Manwarig are among the consultants. The staff will consist of child therapists, vocational counselors, tutors, art and dancing instructors. Alan Carty, director of the psychopathic clinic at Detroit Superior court, will be consulting criminologists, said Dr. Moloney.

## Opens PR Office

Henry C. Michael, 1724 York-shire, announces the opening of his new modern plastic injection molding plant and tooling facilities, Induztro Motive Corp. Michael was formerly executive vice-president of the Jim Robbins company and will devote full time to the management of his new company in Clawson.

## Executive-For-A-Day

Celebration of the extra day in 1960, or "Leap Year Day" on Feb. 29, was traditionally saluted at Demery's, last Monday. On this day, the entire store was operated by a staff of elected feminine executives, while the masculine "top brass" steps down. John W. Butler, 817 Waddington, Bloomfield Village, executive Vice-President of Demery's, shows Miss Orville Trombley, the "vice-president-for-a-day", the architect's plans for Demery's new Birmingham store. On other days of the year, Miss Trombley is buyer of lingerie, jewelry, corsets and uniforms.

## Firm Announces New Position

Albert T. Hapke, former Birmingham resident, has been named to the newly-established position of director of marketing of Brooks & Perkins, Inc., Detroit, the nation's largest magnesium fabricator. Hapke will be temporarily headquartered in California to determine the needs of Brooks & Perkins' spare and military customers on the West Coast.

## Architects Awarded Fellowship

Two members of the Detroit chapter, the American Institute of Architects have been advanced to Fellowship in the Institute. They are H. Augustus O'Dell, 1119 Pilgrim, Birmingham, and Minora Yamasaki, 2077 Livernois, Troy, both of Birmingham. O'Dell was advanced to Fellowship, highest type of membership in the national body, for his service to the institute, and public service. Yamasaki was elected for his "notable contribution in Design." O'Dell, head of the firm of O'Dell, Hewlett & Lockenbach, architects and engineers, has served as president of the Michigan society of architects, and has been a member of the state board of registration for architects, professional engineers and land surveyors. Yamasaki has become one of the most famous architects in this country, and he is recognized nationally and internationally. His most recent project, is the Michigan Consolidated Gas company's office now being planned for the block bounded by Jefferson Avenue, Woodward and Griswold. The Fellowships will be bestowed at the Institute Convention in San Francisco, April 18-22, 1960.

**Medical Mirror**  
WHAT DOCTORS SAY ABOUT

**Those Difficult Days**  
Deafness In Children

*Q. Every month I go through two or three days of absolute misery. I have tried everything under the sun. Can anything be done for this periodic pain?*  
—Miss W.

*A. Most women probably have some periodic discomfort, but consider it normal and pay little attention to it. Although dysmenorrhea (difficult or painful menstruation) can be caused by specific disorders, in most cases no cause can be found. If the doctor point the cause, don't assume that he is going to say, "It's all in your head." The pain is there and no one knows it better than the sufferer. The first step in getting lasting relief of the "cramps" type of dysmenorrhea is often difficult for the victim because it may involve disregarding folklore and unlearning false ideas about a normal and safe function. Menstruation is not a state of ill health although terms commonly applied to it often imply illness. Some women have the false notion that menstruation is some sort of purgation which rids the body of poisons or that it is an indication of inferiority. Talk things out with your doctor.*

*Q. Our 3-year-old is mentally okay but doctors say she is completely deaf. Are there any books or pamphlets that will help us with our problem?*  
*A. There is a great deal of fine material available for the parents of deaf children. A very useful booklet is the one entitled "If You Have a Deaf Child," a collection of hints and useful information for parents of pre-school age deaf children. It is published by the Illinois Annual School for Mothers of Deaf Children by the University of Illinois Press, Urbana. Information about the Annual School can be obtained from the Division of Special Education, Office of the State Superintendent of Public Education, Springfield, Ill. Parents faced with this problem may secure additional information concerning available material by writing to Science Editors, P. O. Box 396, Madison Sq. Sta., N. Y. 10, N. Y. Answers do not necessarily reflect the opinion of all doctors. The diagnosis and treatment of disease is the function of the patient's personal physician. Questions directed to Science Editors, P.O. Box 396, Madison Sq. Sta., N. Y. 10, N. Y. will be incorporated in these columns when possible.*

a good man to know

**Meet David C. McClary**

"Dave" is one of the younger Goodbody representatives, active in the securities business since 1954. He is a graduate of Michigan State—and his clear thinking has given him a thorough grasp of the pitfalls, as well as the opportunities, found in today's fast changing economic scene. Time and again, Dave has proved himself a real expert at spotting those "special situations" that may benefit a customer! Yet, Dave will never make a move until he has examined the risk possibilities, first!

Like every Goodbody representative, Dave offers truly competent brokerage advice and service. This is possible because Goodbody's well known and highly respected Research Department keeps him constantly abreast of market facts and possible trends. How about calling him today at:

## BETTER-BRAKES...BUICK '60

**BRAKES HATE HEAT!**  
Buick's fin-cooled Aluminum Drums get rid of heat quicker so you're safer!

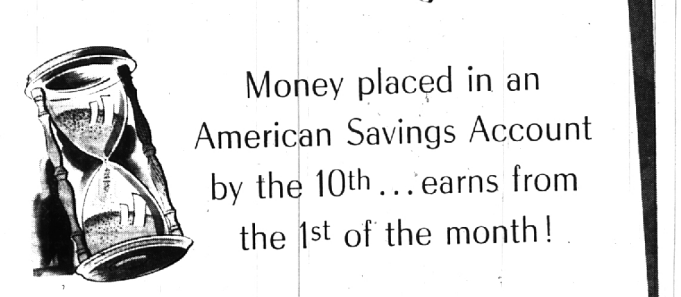

Brakes generate their own worst enemy—terrible heat. Excessive heat is bad because it may cause brakes to lose part of their effectiveness. So the faster you can dissipate it, the better off you are.

Buick gets rid of heat faster by using fin-cooled brake drums. On the front wheels, where most of the braking is done, the drums are aluminum. They cost more to make but they shrug off heat much faster than drums made of ordinary metal. Buick is the only American car that makes them standard, at no extra cost, because you will be safer with them.

Best time to buy a Buick '60 is now because you will get top dollar on your old car and have a wide selection of colors and body styles from which to choose. You can own a quality Buick for less than you might think, and your Buick Dealer can arrange terms to suit your budget.
