(There's more to tell than space allows here . . . come in and let us tell you!)

A Firm Foundation
No furniture is better than its frame. That is why Stewart-Glenn recommends only select hardwoods, tested for strength and resistant to warping. Every corner, if double dovetailed, blocked, screwed and glued.

Double Nailed Webbing
Because the webbing supports springs, cushion—and you, there is enough strength built into the webbing alone to support nine bulky men.

A Job for Skilled Hands Only
In the balanced deck, each spring is hand tied North, South, East and West (and four points in between) to lock them firmly in position.

Wonderful World of Fabrics
An outstanding array of fabrics is available to match the mood of your taste and meet with the perfection of superior tailoring.
