DR. JAMES B. KELLEY

Dr. Kelley Speaks at Holy Name

Dr. James B. Kelley, director of research for Physics Research Laboratories, Inc., New York city, and recently technical adviser to the state of New York on Atomic Energy, will lecture in Holy Name school auditorium Thursday

Prosecutor Hurt In Auto Accident

George F. Taylor, Oakland county prosecutor, ran a red light Monday causing an accident at a Pontiac intersection. Taylor suffered a broken right foot. Taylor, 61, of 6310 Franklin, Bloomfield township, told police he slowed for the light at Franklin and South boulevard but his foot slipped from the brake onto the gas pedal, shooting the car into the accident. The driver of the second car, Richard G. Myles, 52, of Milford, was unhurt. Taylor's wife, Laurel, 60, was hurt two weeks ago when her car went out of control on 13 Mile road in Beverly Hills.

evening, April 7, as the final speaker in the current Holy Name Christian culture lecture series. The lecture is scheduled for 8:20 p.m.

ALTHOUGH most people invariably think of atomic energy in terms of destruction, in his lecture entitled "Science and Religion", Dr. Kelley will point to the constructive use of industrial atomic energy that has for some time been contributing to safer automobiles, textile dyeing and food preservation for the Army. A limited number of tickets are available to non-season ticket holders and may be secured from Mrs. James E. Murphy, Jr., 1319 Dorchester.
