

### Room to Grow In

Adolescence: with a few changes — no major structural alterations — the three-ring circus becomes a haven for sportsmen. Because babies do grow up, it's important to consider future needs in furnishing children's room. Spatter linoleum adds to the decorative effect and ensures that the room will be easy to clean even when mud is tracked in from the fields.

### Fashion Comes to Kitchens

The most exciting and fashion-conscious room in the home today is the kitchen. Dramatic styling has reached a new high in kitchens and appliances. No wonder women all over the country are scheming and dreaming of ways to bring these modern developments into their own kitchens.

SETTING the pace for the smart new look is the streamlined design of metal kitchen cabinets. They are the keynote around which to build a successful remodeling and decorating plan. Their simple elegance is the perfect background for appliances which seem more like a dream than a reality.

WHETHER YOU have a large rambling kitchen or one just big enough to turn around in, the versatility of cabinets makes the most of every inch of available space.

Valuable corners are used to advantage by rotary base and wall cabinets which remind one of a carousel.

Equipped with lazy-susan shelves, a touch of the hand brings every item into view.

NEWLY FEATURED shallow cabinets take advantage of that valuable "middle area" between base and wall cabinets. Sliding doors permit easy access to the contents of the cabinets without getting in the way of the counter work area.

These cabinets are often used in combination with base and wall cabinets to form a wall divider unit that partially shuts off the view of the kitchen from the dining area in a large family-style kitchen.

THESE SHALLOW cabinets are just the right size to house an inter-com system for a really deluxe feature.

Without moving from the kitchen, you can talk to other members of the family or keep an ear tuned to infant cries from the nursery.

Grilled doors used on a sink front or to enclose a radiator add interesting variety.

PUTTING some cabinets on stainless steel legs instead of using the traditional method of installation is a trend that adds a spacious floating look to the room.

Even sink fixtures have been simplified. Instead of requiring two faucet handles, now a single lever faucet controls both the water flow and the temperature.

### Fruit Trees Offer Spring Blossoms And Fall Fruit

Fruit trees offer two extras that you do not get with other types of trees: spring blossoms and fall fruit!

THE SMALLEST LOT can accommodate fruit trees . . . dwarf varieties. They are heavy fruit bearers and often yield earlier.

MORE SHADE is the advantage of standard size trees, and when there is enough space, are a fine choice.

IN PLANTING trees that have baled and burlap-covered roots . . . make the hole, set the tree into it . . . untie the burlap, leaving the roots balled . . . cover dirt in over the burlap lined hole.

### Heavy!

It takes a heap o' nails to hold a house together. A single nail seems almost weightless, but when you add all the framing, siding, roofing, finishing and flooring nails together the total is near 600 pounds.

### Varied Cabinets Modernize and Beautify Bath

Whether you add a bathroom or replace the old, you'll welcome the selection available today in medicine chests of metal. There's a wide range of styles and colors to suit the size and decoration ilies, fit well over a long basin vanity or double-basin unit.

Built-in or free-standing metal clothes hampers also come in decorator colors or white, if you prefer, some have easy-sliding drawers for odds and ends and tall compartments for keeping bottles, soap flake boxes, and bathroom cleaning items readily at hand.

### A Hide-away

Underground garbage can is sanitary, slightly. Self-closing lid opens at the press of the foot.

## HOME REMODELING CENTER

### INVESTMENTS IN YOUR HOME . . .

bring you the greatest returns in money, pleasure, living, family life, companionship and friendship. We take that attitude in helping to plan your improvements and it is backed by 15 years experience in this area.
