# Send For Story About Khrushchev

Send for a copy of "The Crimes of Khrushchev," put out by the Committee on Un-American Activities, House of Representatives, Washington, D. C. This will show you the killer behind the clown.
This pamphlet is the testimony of Eugene Lyons, senior editor of The READ-

ER'S DIGEST, former foreign news cor-respondent in Russia, and author of four books on Communism.

Reading this expert testimony is more.

important than vaccination against small-

pox or polio or any other dread disease.

Mr. Lyons shows that the slogan of 
"peaceful coexistence" is poison propaganda for the American people. It is a complete phony.

TO US "PEACEFUL coexistence" means two nations living together in good faith, like the United States and Canada To the Reds it means only the absence of military conflict, but not the end of blackmail, subversion, infiltration, spying, and

guerrilla operations.

Another point Mr. Lyons makes is that no promise by the Kremlin means anything but a tactical stratagem to deceive the enemy. Former President Truman has said this time and again. It creates no moral obligation whatever.

Further, even if Khrushchev could make a sincere promise, it would not bind the world-wide revolutionary conspiracy against freedom. While Russia is the principal Communist country, the Red leaders in China, the Middle East, Africa, Cuba, Guatemala, Italy, France, etc., would continue to tear down free governments with or without Khrushchev's approval.

### From The Eccentric's Point of View ...

From what we can hear and read, it looks as though Secretary of State Herter is no great improvement in the Eisenhower administration. Indeed, history may re-cord that Mister Herter and his recently acquired Charles Bohlen, (who, as the then U.S. Ambassador to Russia, helped the late President Roosevelt appease Stalin at Yalta) have played into the hands of the Communists by openly sup-porting the opponents of Korea's recently deposed Syngman Rhee. Ask many ob-servers of the world scene: "Is this but the forerunner of a definite plan to neutralize Formosa . . . and finally to recognize Red China?" (Oh, Ike, can't you keep your international golf ball out on the better fair-

In the absence of Gov. Williams, who was making a coast-to-coast trip, Lt. Gov. Swainson vetoed a bill which would have prevented boards and commissions from regulating against advertising.

This action would have been reserved

specifically for the legislature.

specifically for the legislature.
Here is Lt. Gov. Swainson's reason:
"It (the bill) seems to be based on an inference that freedom of the press or freedom of speech is some impaired under existing law. It would diminish the regulatory authority of our regulatory agencies without there being any clear demonstration of need for such reduction."

THUS DOES POLITICS again rear its two-faced head in Michigan:

Swainson is naive if he believes anyone swallson is have it to believe any one today can advertise his goods or services freely as long as he does not do so fraudulently or misleadingly.

The Lt. Governor should ask any doctor

The Lt. Governor should ask any doctor of dentist licensed by his state board of medical examiners if he can advertise more than a 2 column by 2 inch display ad announcing his arrival in town.

He'd be cited for "unethical" behavior, his license yanked out from under his practice, and he'd be nothing but a quack—if he continued to take patients.

Lawyers, too, are under this ban by their state bar association, which can deny membership to anylone it doesn't like.

Confidentially, many of these profes-sional men will tell you they think such regulation is illegal and unnecessary.

WHY DON'T THEY resist it "We can't do anything about it," is their

explanation.

Is or isn't this a loss of freedom of expression, which we are guaranteed under the first amendment to the federal constitution?

We can't zone against esthetics in this nation, but in Michigan we can regulate ethics, can't we, Gov. Swainson?

WE CAN'T DISCRIMINATE in selling real estate, like they do in Grosse Pointe,

real estate, like they do in drosse Fonne, but we can discriminate in whom we let stay in business, hey, Gov. Swainson? In next door Ohio, Governor Swainson's Democratic colleague, Gov. Michail V. De-Salle, had this to say last year to the Ohio

Press Association regarding a similar bill:
"I believe in freedom to advertise almost as much as freedom to speak. Therefore it is with pleasure that I signed Amended

AND SO MICHIGAN BOARDS now have a green light to regulate advertising

as they see fit.

Well, when the Michigan Tax commission tells the grocers' association they can no longer advertise the latest price of butter and eggs because it "isn't ethical", Maybe Gov. Swainson's wife will tell him the basic facts of American economic life.
