How To Judge The Value Of Your Newspaper

Have you ever judged the value of your newspaper? What it actually means to you and your family? Then, let's pause a second and analyze its true value.

Right from the very first page to the last, your newspaper is packed with all the latest news about your community, your county, your township and municipal government. Also there's business and youth news and sports coverage. For mother, there are features that appeal to her whether it's fashion . . . social events . . . home-making or a dozen other feminine interests. In all these and many other fields, you'll find this a complete family newspaper . . . a newspaper that becomes a family affair the minute it arrives.

Cranbrook Buys 'Float'

This 1,800-pound piece of "float" copper, unearthed last summer near Houghton, is now the property of Cranbrook Institute of Science. "Larger pieces of copper are known," Dr. Robert T. Hatt, director of the institute stated, "but the best of our knowledge this is the largest 'float' copper—that is one fully smoothed and with edges curled by glaciers." The copper was hauled to Cranbrook in a five-ton truck. It is now beside the reflecting pool in front of the Institute. It will be permanently settled on a cement base at the west end of the pool for visitors to observe.

Zone Appeal Board Okays Carport Plea

Birmingham zoning board of appeals Nov. 2 granted a city resident permission to construct a carport. Go-ahead was given to M. H. Romain, 1460 Hazel, who was earlier denied permission by the city building inspector. Romain wants to build a carport a foot and three inches from his property line.

FILLERS

Heavy Meal

The winning 87-pound pumpkin in a pumpkin contest held in Leitchworth, England, wouldn't make a very tasty pie. A suspicious judge ordered it cut open, and found it contained 30 pounds of lead and half a bucket of wet sand.

Curb Service

Thieves stole \$5,000 in bills and coins from a Knoxville, Tenn., country club, then loaded the loot into an electric golf cart and drove down a hill to their waiting auto.

Short Run

The producer of a new London play, "The Importance of Oscar," turned down a hosiery firm's offer to supply the female members of the cast with free stockings. It's a one-man show.

"You think so? Well, I've got \$10 that says my husband can't push a lawnmower faster than your husband can."
