Cadillac

Grandest way in the world to get there!

It has been remarked that the most delightful distance between departure and arrival is a journey in a Cadillac car.

And if this has been recognized in years past, it will be more apparent in 1961.

For in all the things that make a car a pleasure to ride in—the current Cadillac is clearly in a class of its own making.

First of all, there is the roominess of the car's interior. Space reaches out in every direction—above, in front, and to the sides.

Here, in motordom's most generously proportioned passenger area, you can really take your comfort in abundance.

Then there is its great luxury. The seat cushions are marvelously soft and gentle... and a wonderworld of personal conveniences is in attendance.

And what a treat Cadillac's interior compartment is to the eye. Choice fabrics and leathers... exquisite patterns and textures... color and chrome—all blend

into a vision of perfect enchantment. And in motion on the highway, these interior delights seem doubly pleasurable.

The car is incredibly smooth and level of ride... and it is so quiet that it is possible to whisper and be heard!

Have you as yet made a journey in a 1961 Cadillac? If you haven't, then we advise postponing it no longer.

For this is one trip that every motorist owes to himself!
