BIRMINGHAM
telephone lines
 By AL WARNER, Manager
 By now we have all gotten over our sunburns, sand-in-our-food, poison ivy and have turned our backs on a pleasant summer. This means getting ready for a "winter" season. Many of you will be seriously getting back to your club activities for the coming year. We have here, at the Telephone Company, some fine programs which are not only of general interest but also cover current topics of this atomic age. If you wish to book a program, please call on LI 6-9941 or CI 2-9080 and we will be glad to make the necessary arrangements.

FIXING UP FOR FALL? A lot of people find that this is a good time for getting things done around the house. And it's a good time to think about getting the extra convenience of an extension phone in your bedroom. It's particularly nice in the winter. If the phone rings at night, you don't have to hop out of a warm bed to take the call. Our new Princess phone fits nicely on any bed table—and its built-in night light is an added convenience. To order a bedside extension phone today, just call your telephone Business Office.

ONE OF THE LATEST improvements in home building is free Built-in-Wall telephone wiring—throughout the house. Special wiring, designed to provide for all future telephone needs, is concealed in the walls of your home during construction. When you move in and order telephone service, the installer locates the hidden wires with an electronic detector and connects your phones. Built-in-Wall wiring assures neat, attractive telephone installations in a wide choice of locations throughout your home and permits you to change locations readily at a later date. If you're thinking of buying or building a new home, be sure to call us at Michigan Bell. We'll be happy to install Built-in-Wall telephone wiring... at no cost to you or your builder.
