Birmingham - Bloomfield Hills Society Notes

By JOYCE KLARR

Guinevere never had it so good! We're referring to the much touted new Lerner Loewe musical "Camelot". Mr. and Mrs. Donald Hays of Buckingham went to Toronto to see it in its pre-broadway throes last week. To add a personal note of interest, Mr. H's brother, Warren Hays, sings in the chorus of the show and has a spear carrying type role (or should I say excalibur carrying, since we're speaking of knight hood?)

"Camelot" is the million dollar musical adaptation of T. W. White's "The once and future king and deals with King Arthur's span in history. Mr. Hays told us that in this point in the Toronto run, the kinks are still being ironed out, and 45 minutes have to be lopped off the show's running time.

THE COSTUMES are said to be the most fabulous ever to hit the American stage. Of interest here is the fact that star Richard Burton was discovered to be allergic to the usual synthetic fur used in stage costuming—real mink was used (such an allergy should happen to me). If it did I would probably be given a shot and told to go to Traverse City till it all blew over.

Other notes on the show sound like an A.M. bulletin. Adrian did the costumes sketches and died shortly after. Lerner is now in the hospital with ulcers and this is to be Loewe's last show. He is retiring after two recent heart attacks. This is show biz?

JULIE ANDREWS is said to be even better in this than she was in "My Fair Lady" and both Richard Burton and Roddy McDowell are good in their latter type songs. Warren Hays has sung in the Chicago companies of "Ball is a Ringing", "First Impressions" and "Wish you were here". We wish we WERE there. In New York to personally wish him good luck when "Camelot" opens at the Majestic theater Nov. 19.

It's Book Club Time

Speaking of the theater, Tyrone Guthrie's "A Life in the Theater" was the book reviewed at Mrs. L. Miller's home on Pilgrim last week. It's book club time again and Mrs. F. L. Robinson gave the review after luncheon.

Olympic Runner Resumes Studies

An Olympic son-in-law is something any mother would be proud of and Mrs. C. B. Quillian of Chertfield is no exception. She told us news of her daughter Betty and Betty's husband Dave Sime. Dave is the Olympic runner who just missed a gold medal in the 100 meter when he lost a disputed photo finish, and in the 400 meter relay he ran anchor for America's winning foursome only to lose this gold medal when Ray Norton ran out of the passing zone allowed for exchanging the baton.

The Simes left Rome, visited in Paris and then returned to Durham, N. C. where Dave has two more years of medical school. Betty is now teaching the third grade at Durham academy and looking forward to Christmas vacation when she and Dave will spend the holidays with her parents in Birmingham.

Winterizes Cottage

Dr. and Mrs. P. T. Lahti of Tottenham spent last week end at their summer home on Torch lake. Instead of closing up the cottage as most of us are doing at this time of the year, the Lahtis are winterizing it. With six children as devoted to skiing as theirs, the cottage will see action most week ends this winter.

Bloomfield open hunt will have its first fall hunt next Saturday, and after the tumult and the tally ho's die, members will gather at the club for a stirrup cup and breakfast (fox amazine?) Albert A. Clark and Stanley M. Humphrey will be hosts.

Another Luncheon

We were at another press luncheon last week (at last I've found my niche — perpetual luncheon goer!) This one was at the Women's city club and again it was brought home to me. These girls know how to eat! Groaning over the foot high baked glazkas were well known Detroiters Fran Harris, Edith Melrose, Lee Murray (did you know she lives in Birmingham?) Myrtle

Labbitt (Mrs. James McGuire's mother) and Esther McIntyre. Metrecal for Lunch?

I drove some eight grade girls to Barnum junior high this morning and we somehow got on the subject of what is favored for school lunches. Much to my amusement, I learned that the current craze among the lunch packers is, of all things, a thermos of metrecal!
