I'm Buying Income Securities... HERE'S WHY!

"At first I didn't know what to do with the money John left me. I set some aside for insurance and savings, but I felt I wanted my extra money to work for me—you know, give me a regular income. Friends suggested I look into real estate and investment securities. I looked into both and found the stock and bond market offered me many advantages.

"The ease of investing was one thing. Another was the expert advice and assistance I got from Watling, Lerchen & Co. The securities I bought give me a steady income and may increase in value the longer I hold them. Also, if I ever change my mind and wish to buy different securities, I can do so very easily and quickly."
