A new disc plov, for use in sticky, highly abrasive or hard to penetrate soils, has been introduced by Ford Motor company's Tractor and Implement division in Birmingham. At 1100 pounds, it is one of the heaviest mounted disc plovs available.

"This fully mounted implement offers farmers the opportunity to do a straighter, deeper, cleaner and more effective disc plowing job," said L. E. Dearborn, 806 Wing Lake, Bloomfield township, divisional general sales manager.

"Its greater weight makes for positive penetration in most soils. Inside beveled discs and the addition of 150 pounds in add-on weights are optional for use in areas of extremely difficult penetration," he said.
