SCHOOL BOOKS and SAVINGS BOOKS

Last week our young people went back to school to begin or to continue the task of acquiring the knowledge that will equip them for adult life.

As they learn from school teachers and from school books the countless lessons that make the total of their school education—so also they should be learning the practical lessons of wise, well ordered and planned daily living.

Important among these is the lesson of thrift—the understanding that thrift is essential for personal and national progress.

A savings account at Birmingham Federal will teach each child the value of careful planning, wise spending and regular saving. Open an account today!
