### The Office Needs You!

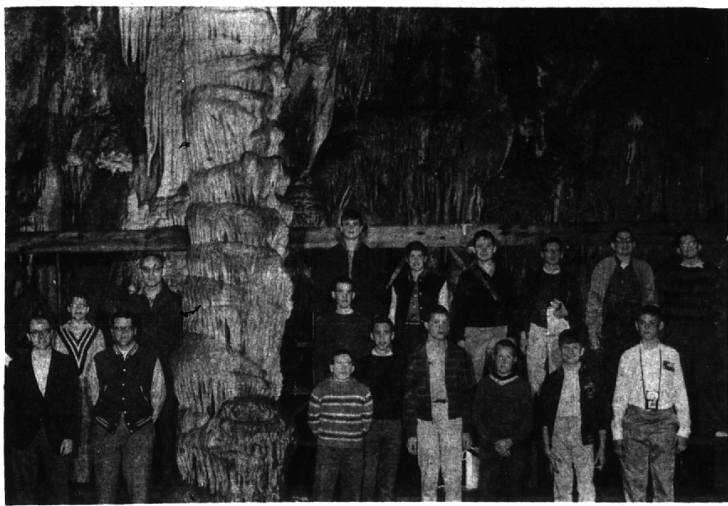

Excellent career opportunities in business, industry, and government abound for those who qualify. The demand is for well-trained men and women. Successful secretaries enjoying highest incomes and the best working conditions, are quick to point out that "half-training" is not enough. Only those who are well trained can command the better positions.

Pontiac Business Institute is successful because it provides the service for which it is organized, specific preparation for earning a living. We should like to tell you about our program. There is no obligation.

### Underground Explorers

One of the many attractions offered Cranbrook School 7th and 8th graders on their 10-day Easter vacation trip to Virginia was a tour of Luray Caverns. The trip was the ninth spring sight-seeing tour chartered by Cranbrook mathematics instructor and athletic trainer Peter B. De-

Witt (front-right), Peter Wilson, (left of DeWitt) science instructor, and Larry Manhart, (behind DeWitt) mathematics instructor, accompanied the group. In the background, centuries old calcite formations develop at the rate of one cubic inch per 120 years.

### 3 MEAT PACKING STOCKS FOR PURCHASE NOW

Legislation now pending in Washington to increase feed grain prices has tempered the enthusiasm of some investors for the stocks of meat packing companies. Feed grain prices are a vital part of the industry's production costs. In a new report, our Research Department states the belief that the outlook for the meat packers over the next year or two is exceptionally bright and points out that hog and cattle production should continue upward. Regardless of possibly higher meat prices, per capita consumption of meat should rise, reflecting increasing disposable consumer income and population growth. Three meat packing issues are reviewed and recommended for portfolios seeking capital appreciation. To receive your copy, now available to investors, simply mail the coupon below.

### Minor Suits Conduct 10-Week Course at MSU

Attorneys for Chrysler Corp. have asked Circuit Judge Clark J. Adams to protect Chrysler's interests in its lawsuit against former official Jack W. Minor, 1536 Dorchester, Birmingham.

The auto firm, in a 15-page brief submitted to the judge, asked that the suit against Minor not be dismissed as requested by Minor's attorneys.

The corporation said the lawsuit filed in Oakland County Feb. 3 against Minor is not similar to two lawsuits filed by Minor in Wayne County Circuit Court.

Chrysler urged the court in chancery to try Chrysler's claims, irrespective of the prior pendency of Minor's actions at law.

## Starting a new lawn this spring?

1. Don't worry about poor soil. You don't need to go to the trouble and expense of bringing in topsoil. Any soil—even subsoil—can give a satisfying lawn with regular feedings of Scotts protein-building TURF BUILDER®.
2. Don't be taken in by seed "bargains." You want a good lawn, not a hayfield. Cheap mixtures contain wild grasses that will plague you for the life of your lawn. Scotts seed is all good grass, perennial and weed-free.
3. Don't plant the wrong kind of lawn. Be realistic. If you need a lawn that stands up to the punishment of children and weather, choose Scotts PLAT seed. If appearance is paramount, Scotts FAMILY® or CLASSIC®.

Ask us about the Scotts guarantee... a better lawn or your money back!
