## Novel Play Equipment Planned at New Camp

By IRMA N. DAVIS  
Staff Writer

A drag strip for tri-cycles, a pirates' cave in the side of a hill and a crow's nest for sea-minded small-boys are some of the imaginative play activities planned for Echo Park Primary School and Day Camp in Bloomfield Hills.

The new camp will open July 5. A fall opening is scheduled for the school.

Its director, Walter Baker; its sponsors—all local residents—will provide the landscaping on 39 acres of the old Newcombe estate, once

known locally as "The Junipers."

RIDING THE CREST of a hill, the old grey stucco house boasts everything from a ballroom to builders' pantries. Nooks and crannies here and there, hold promise of adventure for its future campers and students. Outdoors are rolling meadows, hills and woodlands.

Following two months of camp activities, a nursery, kindergarten and first grade will open. Five fall camps with higher grades up to the sixth being added periodically.

Sensitive to the needs of children, Baker envisions equipment and program aimed at developing the child mentally, emotionally and physically.

dad may participate in meetings of a seminar type, at intervals during the school year. Outside experts will speak on specific topics at some of the sessions. The huge mansion affords ample room for story-telling bees around its five huge fireplaces. Its spacious attic will be set aside for ping-pong and other large rooms during the school year. Outside work centers.

Children will be served meals from a modern kitchen and be transported by carefully chosen drivers.

**TAKE IT EASY**

SO MANY OF YOU MAKE A HARD JOB OUT OF A MODERATELY EASY ONE WE ARE REMINDED OF THE DEFINITION OF AN EXECUTIVE "IT. OR HE, IS ONE WHO FINDS A ROW OF LITTLE MOLE HILLS ON HIS DESK WHEN HE ARRIVES IN THE MORNING AND WHEN HE LEAVES AT 4:30 P.M. (OR 2:30 IF HE IS REALLY BIG) HAS SUCCEEDED IN MAKING MOUNTAINS OF THEM.

WE BELIEVE THAT THE BEST RESULTS IN YOUR TOTAL YARD AND GARDEN DEVELOPMENT CAN BE ACHIEVED WITH LESS EFFORT, LESS EXPENSE, MORE ENJOYMENT AND MORE TIME FOR BOATING, GOLF, BRIDGE, ET CETERA. IF SOME ATTENTION IS PAID TO PROPER METHODS AND MATERIALS AND TIMING.

FOLLOWING ARE A FEW IDEAS THAT CAN HELP YOU ACCOMPLISH "THE BEST RESULTS"

"We start easily and will cover some tough ones in this and the succeeding article (or two, if necessary).

HOSNAP—Why do you curse when you attempt to disconnect the hose from the faucet or from the sprinkler or other equipment? Because you strain your wrist or lacerate your fingers. This device a child of 6 can operate. \$1.75.

AEROSOL DISPENSERS—Gone (if you are smart) are the days of painting sticky gooey gunk on cut branches, spraying evil and gooey gunk around tree trunks to discourage crawling insects. Today's push button cans cover insecticides for house plants, insecticides for outdoor plants, tangle-foot for crawling bugs, repellants for dogs and cats, pruning compound for the stubs of cut branches, Root-No-More for noxious garage and caves-dwelling birds, leaf polish for foliage plants, etc. We don't mean RAID. We are speaking of SPECIFIC products for SPECIFIC jobs.

CRABGRASS—This menace is now a minor control problem. There are two (2) materials that give close to 100% control. They are:—

DOW'S ZIRON  
AGRICO'S PRE-EMERGE

Neither these or any other product for this purpose should be used unless you are willing to:—

1. Fertilize adequately (not necessarily in accordance with the manufacturers recommendations).
2. Mow your lawn to a height of about 2" (so the remaining blades will be sufficient to transform the fertilizer into a useful food).
3. Water intelligently so the deep-rooted fescues and blue grasses will be encouraged and the shallow rooted weeds, crabgrass, quack grass and bent grasses will be discouraged.

STARTING THE FIRE—In the fireplace or in the barbecue grill this little battery operated blower pointed at the right spot will give you more time to welcome your guests and prepare the sauce properly. In an emergency it can act as a hair drier for a long-hair or a lady.

AEROSOL DISPENSERS—We failed to mention the PAINT SPRAYS. The flat black and the flat white can change your iron equipment in a jiffy.

GARDEVATOR—A marvelous labor saver in fixing up small spots or areas in the lawn. No raking involved. Sow some seed and run this gadget—over and under with one hand, pat it down with a shovel and the job is done.

CHIPMUNKS—Or gophers or ground squirrels or what—the ones with the stripe up or down from top or back from back to front.

TO ENCOURAGE:—BIRDSEED.

TO DISCOURAGE:—MOLE-TOX OR RAT TRAPS BAITED WITH BREAD CRUSTS SLATHERED WITH PEANUT BUTTER.

GRASS CUTTERS—Since we mentioned earlier that a 2" cut is essential for most lawns the following equipment is carried by us because it can fill this requirement. We would like to add also that no finer equipment is available.

TORO — REEL & ROTARY — POWER DRIVEN PENNSYLVANIA — HAND MOTIVATED

FINISH—For today ONLY are we finished. We believe sincerely that you (we are speaking of the average person) could be as thoroughly confused by the complexity of advertising & promotional publicity as we could be. However, we do keep in close touch with research and testing and our products are used with Penn State, Purdue, Michigan State, Oakland County, Agricultural Agency (which you should make more use of), landscape architects, lawn maintenance people, and even the U.S. Dept. of Agriculture for current information on the best materials and techniques for the homeowners benefit.

Sincerely yours,

Want little tires or full-sized tires on your compact?

WHICH IS THE RAMBLER AMERICAN?

X-RAY BOOK! COMPARES

Small compacts like Falcon, Corvair, use 13-inch tires that turn a million times more every 10,000 miles—run better, wear faster.

Rambler American is the economy compact with big 15-inch tires that look better, run cooler, last longer, give more load-carrying capacity.

FREE 28-Page Illustrated X-RAY BOOK At Your Rambler Dealer Compares '61 Cars Side By Side

Get a Rambler American!

X-Ray shows it's BETTER BUILT  
Compare Falcon, Comet, Corvair, Valiant, Lark, Lancer with Rambler American's thorough excellence, such as 9,000-weld Single-Unit construction. Deep-Dip roofputting up to the roof.

X-Ray shows it's a BETTER BUY  
The better-built Rambler American officially carries lowest price of any U.S. sedan. It is priced from \$674 to \$485—LESS than ALL other Americag-made compacts.

\*Price comparisons are based on manufacturers' suggested factory delivered prices for lowest-priced models.
