

NATURE NOW

By Lydia King Frehe
Special Writer for The Birmingham Eccentric

Need Natura Science To Understand Life

Some time ago we came upon this statement made by a friend: "Interest in nature is not generally widespread, although many of us enjoy flowers or the out-of-doors."

graduates can now earn a degree in "Interest in nature is not generally widespread, although many of us enjoy flowers or the out-of-doors."

OUR FIRST assignment after teaching biology to high school students was to study a textbook and aided by a microscope, looked at a series of slides of lowly life-forms.

INFORMAL GROUPS such as the Audubon Society, botany, biology and conservation clubs, are variously effective in defining the role which natural science plays in our present-day world.

Fortunately for me, I was soon to be thrust into a camp situation which demanded that I think and act creatively in an area which had been routine.

LET US SAY our quote re: the literary "Birds, Bees and Flowers" is fortunately passed. In the true sense, natural science can be a source of joy.

WITHIN THE last century the natural sciences have gradually come into their own. And with this change the role of both the naturalist and the scientist has been to command the respect it deserves.

Tea, romantic brew of the ages, led directly to the founding of the Great Atlantic and Pacific Tea Company, the nation's oldest and best known food store chain.

Hogan, Baker Get Committee Posts in House

State Rep. Henry M. Hogan Jr., of Orchard Hill, Bloomfield Township, has been appointed chairman of one standing committee and a member of three others in the State House of Representatives.
