### Lecture

(Continued from 1-C)  
S. Wellock.  
Among those who will attend the lecture are Mesdames Warren S. Booth, Carl Hartman, George C. Custer, Edward Cushman, Semon Knudsen, Wright Tidale, Donald Koh, R. Stevenson, John Blomquist, Henry S. Booth, Benjamin Browner, Arthur Ralston, Max Frabaut, Samuel Lang, Frank Chapman, Herman Scarey and J. F. Pedder.

RECENTLY the association honored Fr. Maslen for the cathedral which has received national recognition. At 89 years of age Mr. Maslen wants to work and his gargoyles is the first one to be carved.

Members in the association therefore felt it most fitting to honor Mr. Maslen having his name inscribed in the Washington Cathedral and the bay project is a continuous work of the association of which Mrs. Roy D. Chapin Jr. is chairman.

MR. MASLEN lives with his daughter and son-in-law Mr. and Mrs. Hollister T. Mabley of Lowell Court.

## New Wonder Drug Cosmetic Restores Young Look to Skin

Medical tests show Helena Rubinstein's Ultra Feminine reduces wrinkles due to dryness and restores young tone to mature skin.

Now you can look younger. Medical research proves that the action of two vital female hormones, estrogen and progesterone reactivates specific skin cells. Wrinkles due to dryness are reduced. Young skin tone is restored.

The discovery that has made this possible is Helena Rubinstein's Ultra Feminine Face Cream, the only face cream with both vital female hormones.

These are the very hormones that have helped shape every woman from Venus to you—the same hormones that abound in a young woman's skin.

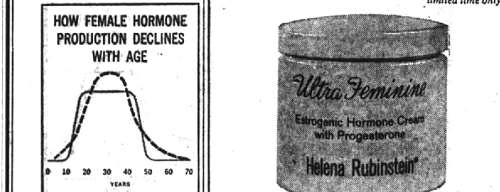

The chart below shows you how nature reduces estrogen and progesterone supplies with maturity. Here's what happens when Ultra Feminine replenishes estrogen and progesterone daily to your skin.

What the doctors report  
Skin cells can hold maximum moisture again. These cells, plumped out once more, support the surface firmly. Lines smooth out. Wrinkles due to dryness are reduced. Young skin tone is restored.

Oil glands produce at a more youthful rate again. Tissue sections and skin surface tests show an amazing increase in oil production. The skin is soft, dewy, protected.

HOW FEMALE HORMONE PRODUCTION DECLINES WITH AGE

These curves show the relative change in the amounts of estrogen and progesterone during the life of the female. Note how rapidly they decline after 35—the estrogen first, then the progesterone.
