

Everybody's Doing 'Do-It-Yourself'

Didja Ever Model Cars?

With lots of body English, Robert Collins (left), and Roger Poland, both of Beverly Hills, race their model cars down a ramp in a "fun-race". You can guess from Robert's face just who won. He also placed first and Roger second in the recent annual Pinewood Derby, held at Beverly School, under the direction of Cubmaster Robert Spencer. Cubs in Pack 1024 made their cars in conjunction with their Dads.

Or Pull Some Wires?

Those gadgets look pretty imposing but 14-year-old Phil Gaudis, Bloomfield Township, says the pieces of equipment are merely an oscilloscope, signal tracers and—

umm—some—well, anyway, he uses them in his electronics hobby which he has pursued for two years, ever since taking the appropriate math classes.

Or 'Cut Up' a Bit?

Now this looks simple! Just get scissors, glue, a huge file of magazines and colorful pictures and start snipping and pasting. Watch out—you're smearing the paste and look at that jagged edge. No wonder it took Mrs. Duncan Hammer, West Bloomfield Township, four years to master the art of decoupage. That's a coal scuttle she's working on.

Get a Boating Kit?

It took Gordon Fowles, Bloomfield Township, four months to build this 15 1/2-foot, crescent sailboat and he would never have finished it if Bill, 6, Mary, 11, and Nancy, 8, hadn't held his tools, handed him things and cheered him on. The boat took shape in the garage of the Fowles home and will be launched in Walnut Lake this summer—also with cheers.

They Say,
'It's Great
To Create'

Or Attend a Class in Stained Glass? Well, These People Did

All you need is lots of hand-blown glass, tools and ingenuity and presto, you have stained glass—maybe. Mrs. Darl Caris, Bloomfield Hills, has been designing leaded and fused pieces for three years. Here she studies her supplies, prior to laying out stained-glass which will eventually be soldered

or fired. To arrive at a finished product, such as Mrs. Caris is holding up, just join a class or find a good teacher. From then on, it's only a matter of time—a long time.

It always was, and is, so . . . that the youth of every generation wants to improve the world left to it by its elders . . . and because its elders have failed to begeth to youth the examples and teachings of "how to win and retain the maximum of happiness", youth rushes headlong into problems, troubles. Our vaunted freedoms too often provide highroads to low low roads.
