

Hot Baths

Q. *Would daily hot baths cause a man to become sterile?*

A. Sensitivity of the male testis to heat probably varies. For some men, prolonged hot baths might lead to some loss in reproductive capacity. Others might not be affected. Men whose fertility characteristics are borderline should perhaps avoid prolonged overly-hot baths.

Pregnancy Possibilities

Q. *Is it possible for the nursing mother to become pregnant?*

A. As a general rule, no. Ovarian activity is largely suppressed during the nursing period. The suppression can not, of course, last indefinitely so that the possibility of becoming pregnant increases as the nursing period wanes and the baby is weaned.

Contact Dermatitis

Q. *What is contact dermatitis?*

A. Contact dermatitis is an eruption on the skin or mucous membranes resulting from exposure to certain substances called allergens (contactants). Avoidance of contact with the offending substance will almost always clear up the skin trouble. But the skin "remembers" the allergen and if exposure occurs later, even years later, the skin condition will again flare up.

Epsom Salts Soaks

Q. *What is the logic of soaking a swollen injury in Epsom salts solution?*

A. When an injury occurs, fluid seeps into the damaged tissue, causing edema or swelling. Because fluid flows from areas of lesser to greater concentration, the relatively strong Epsom salts solution is said to "draw out" the excess tissue fluid and reduce the swelling. This, at least, is one explanation.

Scores

(Continued from B-1)

letters on white plastic plaques are used to indicate scores which are even with or above par scores. Under-par scores will be designated in bright red on a white background. The figures are nearly five inches in height.

THE PUBLIC scoreboard, which remains the same as in previous Openers, provides the hole-by-hole results and totals of the 150 entrants during the first two rounds, and for the low-50 scorers and ties qualifying for the final 96 holes. This board will also contain a summary of the leading scorers during the round.

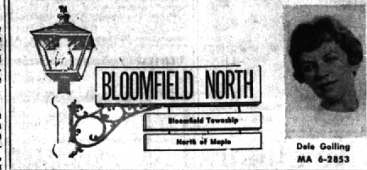

In addition to the scoring facilities, an announcer at the 18th green will inform the gallery of the name, past performance and scores of each player as he approaches the green. Scoring information will be transmitted to all scoreboards by walkie-talkie units. These units will be manned by persons following the leaders to provide hole-by-hole reports throughout the championship. In all, a total of 17,727 plaques will be necessary to equip the entire scoring system.
