Barnum Junior High Students Planning Class Schedules For Next Year

By KAREN L. PIEL
Special Writer

Eighth grade scheduling is well under way at Barnum. With the aid of parents, counselors, and teachers, all eighth grade students are making out their class schedules for next year. They must decide which subjects they want to take in the ninth grade.

Such month graders will also be choosing subjects for their first year at Seaholm.

THE RECORD HOP sponsored by Barnum's eighth and ninth grade cheerleaders on Friday was a big success. The dance was informal and no dates were allowed. Several teachers served as chaperones.

Barnum's newest teacher, Mr. Paul Coltrone, made a fine disc jockey. Profits from the dance are going to be used for new uniforms for the cheerleaders.

BARNUM'S SWIMMING pool has really been having a workout in the past few weeks. Swimming is taught in the physical education classes during school hours. After school, either the boys' swimming team or the girls' water polo team takes over the pool.

Many people participate in swimming which takes place every Monday night. Not only is the pool used for pleasure, but also for therapeutic swimming on Wednesday night.

BLOOMFIELD HILLS HIGH Ski Film, Fencing Star at Assemblies

By SUE HALLAS
Special Writer

We students can be a pretty motley crew from time to time, but for the most part we work pretty hard. Therefore when we are offered entertainment, we lap it up with great enthusiasm.

The first case in point was the John Jay Ski film. The AFS Club found themselves with a full house, and cleared enough to bring a foreign student with a big appetite next year.

A special "thank-you" is in order for Mrs. Gray Pitts and her adult committee.

IN OTHER QUARTERS and at other times, entertainment is a welcome break from the old grind. We have been "assembled" as never before.

First, we enjoyed a musical assembly put on by a group from the University of Detroit, including an alumnus, Clason Shumard, who made us proud.

Then a fencing demonstration with U. of D. representatives which was also most interesting.

CRANBROOK SCHOOL Headmaster Confers 'Catch-Up' Benefits

By BOB HUGHES
Special Writer

Wednesday was declared by Headmaster Harry D. Hoey to be "Catch-Up Day."

This holiday is customarily given to the student body in early March or late February when the headmaster feels that the students have done an adequate academic job during the first semester, and have shown sufficient responsibility and good citizenship.

Boys were permitted to sleep late in the morning and spend the rest of the day as they pleased. Boarders were allowed to take trips to Detroit and Birmingham, returning in time for evening study hall.

Some boys spent the day resting, listening to music and taking advantage of the fine weather; others took advantage of the entertainment possibilities offered by Detroit and Birmingham.

Some of the more diligent spent the day making up back work, studying for the State math prize exam which was given Friday or using the various public libraries. Team sports held practice as usual.

ON FEB. 25, five seniors were inducted into the Cranbrook Chapter of Chi Lambda, a national secondary school academic honor society, similar in purpose to Phi Beta Kappa on the college level. Joel Cohen, Bob Hughes, George

OLSEN'S SAUSAGE SPECIAL!

FRIDAY and SATURDAY only.

2 LBS. FOR 89¢

In the early 1880's, Alex Parks, a Birmingham butcher, achieved a modest kind of immortality by producing a pork sausage of rich, distinctive flavor. Through an unbroken line of Alex's successors, his famous sausage recipe became a part of this business when it was founded in 1924. It's grand enough to serve dining guests; ideal with waffles and maple syrup, or poached eggs on toast, for Sunday breakfast.

WHAT DOCTORS SAY ABOUT

Low-Salt Diet

- Tubal Pregnancy
- Polio Discoverer
- Humidity

Q. Are frozen vegetables suitable for persons on a low-salt diet?
A. Some are—others may not be. Freezing is used in processing some frozen vegetables, especially peas and lima beans. This adds a substantial amount of salt to the vegetables.

Q. What causes tubal pregnancy and how is it treated?
A. Previous inflammation of the pelvic organs is one cause but in many cases the cause is unknown. Tubal pregnancy requires surgery and it is often necessary to remove the involved tube. Sometimes it is possible to surgically remove the product of conception without removing the tube. It has been stated that a woman becoming pregnant following a tubal pregnancy risks a recurrent tubal pregnancy in 50 per cent of cases.

Q. Is Dr. Sabin, the originator of the new oral polio vaccine, an American?
A. Dr. Sabin was born in Bialystok, which is now a part of Poland, but was then under Czarist Russia. He came to the United States as a youth and has been a U. S. citizen since 1939.

Q. Would keeping a spon of water on the radiator help moisten bedroom air?
A. It wouldn't do much good. It may take as much as a quart of water to moisten the air in a closed bedroom of ordinary size. This amount of water is supplied by a boiling tea kettle in 30 minutes or by an electric steamer in an hour or so. The humidification produced by pans of water, even on the radiator, is hardly worth mentioning. Even when bedroom air is comfortably moist, the moisture escapes when the door is opened and the humidity promptly falls to that of other rooms of the house.
