**Local Delegate Attends Seminar in Washington**

A legislative seminar was held in Washington, D. C., from Feb. 25 through March 2, sponsored by the Women's International League for Peace and Freedom. Mrs. Angus McLaughlin of Winnetonka attended as the representative of the Oakland County branch. U. S. Policies in a changing world was the general theme of the conference. Inasmuch as the Congo, Portuguese Africa and Southern Africa are the countries in which the most crucial and confusing events are likely to take place, they were the ones most carefully studied.

THERE WERE briefings from experts from the State department, a critique of U. S. foreign policy by a top reporter, and panel discussions by non-governmental authorities. On the final day a breakfast was held in the old Supreme Court room in the Capitol in honor of Senators and Representatives. That afternoon visits were made to various embassies.

ABOUT 50 delegates from all over the United States attended the seminar. The Oakland County Branch of the League for Peace and Freedom will meet 1:30 p.m. Monday at the home of Mrs. John Grumond of Marlin Court, Birmingham, for the group's regular meeting.

**"THE TIME HAS COME"**

THE SEEDSMAN SAID, "TO SPEAK OF MANY THINGS—of ships at sea (that's the customers), equipment old (that's used spreaders) and tools and bulbs and seeds—SO

Why waste time on a bit of fumble pentamer when there are seeds to be started, tools to be refurbished or replaced and USED SPREADERS to be sold (practically given).

Since the LAST SHALL BE FIRST we must start with the used spreaders. Most of them are beautiful LAWN BEAUTY'S. We loaned them to you last year and, we humbly confess, they are in far better condition than when you returned them to us. The prices are well under what they cost us and, although a bit battered, are in excellent and durable operating condition.

**RULES:—**  
All sales final—no returns.  
No spreaders will be held out awaiting inspection.  
Orders by telephone for delivery will be considered as completed sales.

FIRST COME—FIRST SERVED.

**CRABGRASS—**  
The time has come to select one of the wonderful PRE-EMERGENCE controls which should be applied from about mid-March to early May—AFTER THE LAWN HAS BEEN CLEANED AND FERTILIZED. (If Pax is used the spring fertilizer application must be eliminated.) A good sound plan would be to get it on the infested areas by the 1st of May (a late spring could extend the time) before any seeds have germinated. More effective products, judging from experimental tests at University Research Centers are:—

Dow's—Zytron ..... 98 to 100% Control  
Agrico's—Pre-emerge ..... 98 to 100% Control  
FAX ..... 98 to 100% Control  
Chloridane—72% (Liquid) ..... 85 to 100% Control

Perhaps the most important first step in the control of crabgrass and weeds in the lawn is "the development of a DENSE, HEALTHY, VIGOROUSLY GROWING TURF."

Therefore, get busy with your fertilizer as soon as possible. REMEMBER—THE AVERAGE LAWN IN THIS AREA REQUIRES 2 LBS. OF ACTUAL NITROGEN FOR EACH 1000 SQ. FT.—REPEATED 3 times during the year.

20 lbs. of 10-6-4 on 1000 sq. ft. will do this  
10 lbs. of 10-10-5 on 1000 sq. ft. will do this

Good Materials are:—  
Agricy for Turf ..... 10-6-4 ..... \$6.70/100 lbs.  
Agrico U. F. (non burning) 10-6-4 ..... 8.75/100 lbs.  
Stadler's Light Weight 20-10-5 ..... 4.50/22 lbs.  
Stadler's XXX ..... 10-6-4
