"Just Right" For
CLEAN
Housekeeping!

No wonder they say CLEAN when they talk about Gas househeating—it's so clean-burning! Since Natural Gas is already a gas, it is ready to burn—therefore it burns easily and efficiently. You aren't left with smoke, soot, or a messy film on your furnishings. Women enjoy selecting light colors for decorating and with natural Gas heat they know there is less concern for soiling and expense of upkeep. It saves time—saves cleaning bills—saves hours of housecleaning. And the surprising fact is that people who get the facts, generally find this better heat saves them money too!
