Win Sugar Bowl Award

Seven thousand Torch Drive volunteers from Oakland County won the United Foundation Women's Organization's Sugar Bowl award at Monday's Community Campaigns Day luncheon in Detroit. Mrs. Clyde C. Bennett Jr. (left), 1274 Westwood, Birmingham, accepted the award from Mrs. Melvin Campbell, Macomb County chairman. The Sugar Bowl is awarded to the county organization attaining the highest percentage of its goal during the first 10 days of the campaign. The Oakland organization of 7,000 women attained 85 per cent ($264,411) of its $311,055 goal. The drive continues through Nov. 9.

Exec Predicts Growth In World Economy

General Motors President John F. Gordon, Bloomfield Hills, told a group of the nation's leading railroad executives recently that GM will continue to devote its designing, engineering and manufacturing efforts to offering them a "product so superior in every respect that it will outsell all others."

The railroad officials earlier inspected a new Diesel locomotive, the GP-30, developed by GM's electro-motive division, and toured the company's Technical Center at Warren.

From engineering and development activities at the Tech Center and work being carried on by various divisions of GM, "we hope will come, speaking symbolically, another Diesel locomotive — an other product that will make as great and as dramatic an economic contribution to our industry and to our country as the Diesel locomotive," Gordon said.

" " "

"WE HOPE THAT this new locomotive and the financial investment and years of research which it represents also indicate as clearly as they should our confidence in the future of the railroad industry," he said.

"We firmly believe that the expansion of our economy and the increases in our productivity are going to be so rapid that they will strain the resources of the entire transportation industry."

Pointing out that this might sound overly optimistic, Gordon said "It is easy to underrate our own greatly increased industrial strength and to underestimate what we can now do under the stimulus of a competitive economy that always has driven us to accomplishments beyond our apparent capabilities."

Added to the traditional competition incentive is the all-out challenge which Russia has laid down to this country's ingenuity and competence on all productive and creative fronts, Gordon declared.

" " "

"BARRING A major war, it seems to me that we are about to enter a period of industrial and general economic, both here at home and throughout the world, that will dwarf any comparable periods in history.

"I don't see how our economy can do what it must do to stay healthy and dynamic, or perhaps even to survive, without eventually taxing your facilities beyond their present capacities," Mr. Gordon told the railroad executives.

To Sell Candy

BEVERLY HILLS—Cub scouts of Beverly PTA sponsored Pack 1024 will sell candy in the school lobby during the open house Monday and Wednesday from 8 to 9 p. m. The fund-raising drive will finance the fall activities.

Encore to Safety Confab Slated for B'ham Friday

An encore to the Birmingham-sponsored Governor's Regional Traffic Safety Conference in August will be staged at the Community House Friday.

Essentially the same cast of some 100 delegates will review and act upon the August script.

Material to be covered includes Governor's Conference resolutions, Michigan Citizens Highway Safety Action Committee public opinion survey on driver capabilities, development of a public education program and election of a regional citizens committee to develop a safety program.

THE FOUR-HOUR follow - up meeting (12 noon to 4 p.m.) will attempt to select one of the five general Governor's Conference subjects and determine specific statewide action for 1962.

These five proposals to be considered are:

1. What Can Be Done to Better Traffic Climate in Michigan?
2. Safety Legislation in 1962 in Michigan.
3. How Can Official Services Best Aid Local Safety Efforts?
4. Physical Examination for Drivers.
5. Should Industrial Engineers Meet to See How Accidents Can Be Decreased?

" " "

MAYOR FLORENCE H. Willett will chair the meeting and Police Chief Ralph W. Moxley is coordinating the conference.

Main speaker for the day will be Gerald Shipman, executive secretary of the Michigan Safety Commission, who will deliver an address embracing the Citizens Highway Safety Action Committee's survey, the Governor's Conference report and vehicle check awards.

Afternoon discussion groups will be led by Dain Milliman, 1260 Yorkshire, Birmingham, retiree of the Aluminum Co. of America, and former Birmingham Mayor Bruce Booth, 4485 Park Lane, Birmingham, of the General Motors Legal Department.

ESTABLISHMENT OF a permanent organization for regional traffic safety study and election of its officers will conclude the meeting.

Similar follow-up meetings will be conducted in the state's six regions during November. Birmingham is in the southeastern region.

Con-Con Tables Van Dusen's Deadline Proposal

Con-Con Delegate Richard C. Van Dusen (R-Birmingham) said a resolution setting a Nov. 22 deadline for introduction of proposals to the convention "shouldn't impose a serious hardship, since the deadline is four weeks away."

The resolution was tabled when delegates went home last week end.

Chairman of the rules and resolutions committee, Van Dusen had previously offered an earlier deadline with an understanding that delegates could introduce proposals later with convention permission or could make suggestions to committees directly.

VAN DUSEN'S proposal, aimed at speeding up convention activity, sets the deadline for all nine substantive committees to report proposed timetables for three basic steps.

The first step provides for a study of all existing constitutional provisions within each committee's jurisdiction; the second step covers consideration of all proposed changes in the existing constitution.

The third step provides for committee preparation of proposals scheduled for floor debate and for supporting material relating to them.
