Palmer St. Situation Causes Some Concern

To the Editor:

I am concerned about a situation on Palmer Street near Eton Road in Birmingham.

Restrick Lumber Co. took out a permit Nov. 23, 1954, to enlarge a building on Lot No. 10. Off-street parking was to be provided for 52 cars.

As of this date, over seven years later, no off-street parking has been provided and many unsightly prefabricated wooden panels are stored in the public street on Palmer.

Employees of Michigan Panel Components, Inc. are monopolizing parking on Eton and Palmer to the detriment of longer established businesses.

The wooden panels are a fire hazard and dangerously block the route to the fire hydrant. The company's solution of this abuse of public property is to close part of the street, which they have been using against the law. To close or lease part of the street to the com-

pany would be rewarding a person for breaking the law for over seven years.

I've lived in Birmingham over 35 years and know the city has an outstanding group of employees. Both the city manager and the fire department advise against closing Palmer and also say that the material stored there is dangerous.

Why have experts advise, and then not listen to them? I know of no other party getting VIP treatment.

Rules and laws should be made for all.

Commissioners Carl F. Ingraham and Ralph A. Main voted against allowing a private enterprise using a non-travelled public street for storage purposes. Commissioners Robert Pace, William E. Roberts, and William H. Burgum voted yes, "under the circumstances."

Hamlin Due For Seventh Term

Delos Hamlin of Farmington, Chairman of the Board of Supervisors, will probably be re-elected for a seventh term, according to other Township Supervisors.

Hamlin has filled the position longer than any other man, and though his reappointment is irregular, Arno Hulet, vice-chairman of the board said that they would be "no question about it."

Due to Hamlin's capability and willingness to serve in the position, the board, since 1958, has checked its traditional policy of alternating the chairmanship between city and township supervisors.

Hamlin is also past chairman of the Supervisors' inter-city committee, is a director of the State Association of Supervisors, and holds committee posts with the National Association of County Officials.

Retailers are assisting to market a record volume of clingstone peaches by offering them at special prices, reports the County Marketing Agent, Mrs. Josephine Lawyer.
