Parents Ask Traffic Study

Fourteen parents have petitioned the Birmingham City Commission for a "re-evaluation" of traffic regulations effective in front of Baldwin School on school days.

The exhibit is made up of selected paintings and prints from community art clubs all over Michigan.

Tours of the Center's art gallery will be conducted throughout the week by a member of the MSU art department.

Local people displaying at the exhibit are: Mary M. Board, Bert Fish, Nori Geffen, Carol V. Hall, Lura Lawler.

Chester for the use of the parents of the 480 students now enrolled in Baldwin School.

"Do you consider this adequate?" They suggested that some arrangement be made whereby parents could pick up or deliver their children on a rainy day and that standing for 10 minutes only?

"There are, however, seven city parking meters on the east side of

"AT PRESENT there is no parking permitted school days on the west side of Chester in front of the school and . . . parking permitted by permit only at the rear entrance of the school," the parents said in their petition.

"We FEEL A real need for us in this area," Snelling said, "and can service this community better if we are a little bigger."

Although no decision has yet been made by the board, it is expected the school will add about three classrooms per year for two or three years, Snelling said.

An immediate consequence of these changes is the creation of a new language laboratory, at present nearing completion. It will include equipment for new audio techniques in modern language instruction.

"The 30-year-old attorney said he welcomes the opportunity to serve the Democratic party in Oakland."

He said the party is currently embarked upon the creation of the statewide membership drive and the "Build Michigan" program.

The latter is designed to inform people about Governor John B. Swainson's legislative program.

LEVIN, his wife, Vicki, and two children (there's a third due early next month) have lived in Oakland County since 1957, following his graduation from Harvard Law School. He graduated from the University of Chicago in 1952 and took his Masters Degree in International Relations at Columbia University in 1954.

LEVIN is a precinct delegate and a member of the Oakland County Democratic Party's most successful Congressional District.

The young attorney is also a member of the volunteer staff of the Most Holy Trinity Church in Detroit and an advisor on the Berkeley Council for Better Schools.

Ginn, the retiring chairman, pledged his support of the organization, adding that he would seek re-election as precinct delegate in Southfield next month.

LEVIN'S TERM will run to next August, filling Ginn's unexpired term.

Parents Ask Traffic Study

The parents said they understood that "no parking" signs were erected "to facilitate the loading and unloading of bus pupils."

The facility will be augmented as the size of the student body increases.

Enrollment now is 270, from kindergarten through the 12th grade, and will be raised to about 400 over a four-year period.

Class size, now 24 students in grades seven and eight, will be raised to 36. The present class size of 30 students in upper grades will be raised to 36 also.

"WE FEEL A real need for us in this area," Snelling said, "and can service this community better if we are a little bigger."

Although no decision has yet been made by the board, it is expected the school will add about three classrooms per year for two or three years, Snelling said.

An immediate consequence of these changes is the creation of a new language laboratory, at present nearing completion. It will include equipment for new audio techniques in modern language instruction.

Treatment for Patchy Baldness

Q. My son developed a bald spot on the back of his head. At first it was about the size of a dime but is enlarging. Is there any treatment?

A. This might be a local infection. If not it may be what doctors refer to as alopecia areata, a condition which often responds to local injection of drugs called "steroids." Regrowth of hair usually occurs within three to four weeks. However, such treatment does not result in permanent "cure" and the hair may be lost within six to nine months. Retreatment will usually bring out more hair. Consult your family physician or a dermatologist for a complete evaluation of the problem.
