YOU AND GOD'S GARDEN

It is so very true that you both run it. Neither can really do the job alone and since God helps those who help themselves we feel that our suggestions should be directed towards you.

The great complexity of bugs, disease and soil conditions is due largely to man's incompetent efforts because we have upset His (nature's) balance. So here we go on a control and corrective program—

PEST OF THE WEEK—
ROSE CHAPERS, the light brown beetles are showing up on peonies, roses, etc.

SPRAY PLANTS at 5 day intervals with ISOTOX or McCLELLAN-BALL SPRAY or 50% MALATHION. (A fall treatment will be mentioned this fall).

LAWN CARE IN JUNE—
A second application of fertilizer is called for—NOT to encourage rapid growth—but—TO HELP KEEP IT GREEN DURING THE SUMMER.

Slow acting high nitrogen materials are recommended:
AGRICOLA UREA FORM (10-6-4)—20¢ to 1000 sq. ft.
AGRINITE (7-0-0)—20¢ to 1000 sq. ft.
REGAL LAWN FOOD (5-4-0)—30 to 40¢ to 1000 sq. ft.

TWO MOST IMPORTANT MECHANICAL ACTIONS ARE—
1. SET MOWERS TO 2 or MORE INCHES.
2. WATER ONCE EVERY 5 DAYS AND BE SURE TO PUT ON ONE INCH OF WATER EACH TIME.

P.S. If you can't water this way DON'T water at all. The lawn may brown but will be in better shape than ever come September 10th (or thereabouts).

GENERAL STUFF
Delphinium leaf spot—Spray weekly with BORDEAUX.
Red Spider on evergreen—Use ISOTOX or MALATHION.

Rose chafer on grape, apple, blackberry, cherry, peach and pear—DD-DDE or METHOXYCHLOR & MALATHION.

Rose chafer on rose, peony, elder, maple, willow, oak & hydrangea—McCLELLAN-BALL INSECT SPRAY or ISOTOX.

Leaf spot on peony—CAPTAN or BORDEAUX.
Mealy bugs are controlled with—MALATHION or ISOTOX.

These are examples of the things to be aware of and how to correct them.

Bring your problems to us, but for Pete's sake bring samples if you can, and information on what action you have taken.

For instance—
People wonder why their rhododendrons are poor, but they know nothing of the requirements of this lover of ACID soil.

They spray roses with SULPHUR to kill aphids—a poor deed for the rose.

They water brown spots in the lawn—this SPREADS the DISEASE.

The movement of moths around evergreens and lilacs goes unnoticed—yet this is evidence of BOREAS.

Lilacs love an alkaline condition in the fall when the BUDS set.

Clematis likes its head in the sun, but its feet in the shade—and an alkaline soil.

These and all little problems—
BRING TO US.

FATHER'S DAY

Although we (happening to be fathers) feel that every day presents opportunities to show respect, love and admiration for fathers we must (if we are to stay in business) accept the verdict that a special gift on a special day is a valid means of expressing this love, respect and admiration.

Our only purpose in writing this is to inform you of the many interesting gift possibilities we have which (if you know your father well) may convey your feelings to him with great satisfaction to both of you.

Here then, are a few suggestions that may click for YOU and HIM and US—

To help him keep cool under stress—a handsome WOODEN ICE BUCKET (Mit Tongs)—\$9.95.

A HIBACHI if he has oriental (or American) ideas of grilling a mist steak—\$2.50 to \$18.95.

Fertilizing trees and shrubs with a ROSS ROOT FEEDER (those operated) will get the job done and give him more golf hours—\$6.95.

The same goes for a hose-type HAYES SPRAY GUN. So simple, and several sizes—\$3.45 to \$12.95.

HOSNAPS to eliminate the horrors of connecting hoses and attaching equipment—\$1.75.

BORDEAUX GRILLS in great variety—\$3.95 to \$87.75.

A superb method of announcing that DINNER IS SERVED!! PATIO DINNER GONGS—\$4.95 to \$6.98.

To stop watching him carry rubbish around in a basket or in his arms there is a wonderful new item—a WHEEL-BARROW. \$9.95 to \$35.00.

If his watch is inaccurate he may correct it with a RECIRCULATING PUMP will give him a chance to move a bit of water in a small fountain or waterfall—about \$30.00.

A tremendous thing is the ELECTRIC FIRE BLOWER. It kindles up the briquettes, or the logs in the fireplace and can be used as a hair drier. Battery operated—\$5.14.

With a TRAVELING SPRINKLER he can sit on the terrace and watch it do the job he might be doing. \$32.85 & \$49.95 (The higher priced one winds up the hose on itself. Fancy that?)

Well, there are probably many more things we have but can't think of at the moment. Come on in and talk with our guidance committee (everyone in the store). The items run from 10¢ for a BUNNY SALT SPOOL TO \$475.00 for a fountain.
