VILLAGE OF BEVERLY HILLS ORDINANCE NO. 55

AN ORDINANCE REGULATING THE HOLDING AND DISPOSITION OF PRIVATE PERSONAL PROPERTY IMPROVED BY THE COMING INTO POSSESSION OF THE VILLAGE OF BEVERLY HILLS OR ANY OF ITS OFFICERS, EMPLOYEES OR AGENTS.

The Village of Beverly Hills Ordains:

Section 1.01.

Any personal property which shall be impounded by, or which may otherwise come into the possession of the Village of Beverly Hills or any of its officers, employees, or agents, shall be held and disposed of as provided in this ordinance.

Section 2.01.

All such property shall be immediately turned over to the Director of Public Safety, who shall be the custodian thereof, and it shall be his duty to provide storage for such property until the same shall have been reclaimed by the owner or sold as provided herein. All money and negotiable securities shall be turned over by the Director of Public Safety to the Village Treasurer for safekeeping, and if not reclaimed within the 45 day period provided for below, such securities shall be converted to cash and shall be deposited in the general fund along with other moneys so turned over to the treasurer.

Section 3.01.

Upon receipt of any such property, the Director of Public Safety shall make diligent effort to locate the rightful owner thereof and to return such property to such owner. No property shall be surrendered by the Director of Public Safety and any and all charges for taking possession, keeping and storing such property shall be paid. Before surrendering any such property, the Director of Public Safety shall receive the receipt of ownership as may be appropriate in each case. In the event the name and postoffice address of the owner of any such property is known, notice of the retention of such property, of the requirements of this ordinance pertaining to the sale thereof in the event it shall remain unclaimed within 45 days, and of the limitation on the right of the owner to reclaim such property, as set forth in Section 5.01 hereof, shall be given by the Director of Public Safety to such owner by certified mail, return receipt requested.

Section 4.01.

Any such property other than money and negotiable securities, which shall remain unclaimed for a period of 45 days, or which shall not be returned to the owner thereof within such period because of the owner's failure, refusal or neglect, to pay the charges for taking possession, keeping and storing such property, as hereinbefore set forth, shall be considered as abandoned property and shall be sold. When the name and address of the owner and a post office address of the owner of such abandoned property is known, the Director of Public Safety shall give to such owner not less than ten (10) days written notice of the time and place of such sale, by certified mail, return receipt demanded, directed to such owner at his last known post office address. Notice of such sale shall also be published in two consecutive issues of a newspaper of general circulation in the Village of Beverly Hills. The Director of Public Safety, or his duly appointed deputy, shall conduct the sale and shall set the best price obtainable. All proceeds of such sales shall be promptly turned over to the Village Treasurer for deposit in the general fund of the Village. The Director of Public Safety or his deputy, shall deliver bills of sale and such other papers as may be necessary to transfer proper title of any property sold at such sale. The owner of any such property may not purchase the same at an auction sale unless the price bid and paid therefor shall be sufficient to cover all costs of taking possession, of keeping, storing and selling such property.

Section 5.01.

Upon the sale of any such property all rights of the owner therein shall be extinguished, and such owner shall thereafter have no claim upon the village for the sale thereof, except against the Village of Beverly Hills or any of its officers, agents or employees or against any person who shall purchase such property at auction sale.

Section 6.01.

In the case of the sale of any abandoned motor vehicle, the Director of Public Safety shall notify the Secretary of State of such abandonment, and the proceedings for such sale shall be in accordance with the provisions of Section 202 (4) of Act No. 300 of the Public Acts of 1949 as amended, known as the Michigan Vehicle Code. Any surplus received at such sale, after all costs of the sale, all charges for taking possession, keeping and storing have been deducted, shall be returned to the owner of such vehicle.

Section 7.01.

The Director of Public Safety may destroy gambling paraphernalia or any dangerous weapons or articles which may be dangerous to store, and any perishable goods for which storage may be impracticable, or shall otherwise dispose of them according to law.

Section 8.01.

The Director of Public Safety shall maintain accurate records of all personal property impounded by or coming into the possession of the Village of Beverly Hills or any of its officers, agents or employees, which records, among other things, shall show a brief description of each item; the name and last known post office address of the owner thereof; if known; a copy of all notices mailed and published; to which return receipts were sent; if any; certified mail shall be attached; the costs of taking possession, keeping and storing such property; if reclaimed, the person to whom the property was delivered and the amount received therefor; if sold, the name and address of the purchaser and the amount paid therefor; and such other information as may be appropriate.

Section 9.01.

All ordinances, and resolutions in conflict herewith are hereby expressly repealed.

Section 10.01.

This ordinance shall take effect 10 days after its publication.

Section 11.01.

This ordinance shall be known and may be cited as the "Village of Beverly Hills Sale of Abandoned Property" ordinance.

Made and passed by the Village Council of the Village of Beverly Hills, this 19th day of March, A. D. 1962.

MARVIN B. CLINE, President
BETTY J. CHINN, Clerk

Reject Bids For Water Tank in City

All bids for replacement of a 10,000-gallon gasoline storage tank were rejected by Birmingham city commissioners Monday night.

Instead, commissioners directed the Department of Public Works to purchase the tank, at a price estimated at less than \$1,000, and to install it—at a total estimated price of about \$2,000.

Commissioners last week authorized the city administration to seek bids without advertising to replace the tank in the DPW yard on Eton. Water has been seeping into the underground tank from a rusted and pitted bottom.

LOW BIDDER

Earl H. Parks of Park City, Mich., withdrew his bid of \$1,945. The second lowest bidder, Parks Installation Co., Middlefield, asked \$2,001 and Mel Installation Co., Taylor, asked \$2,360.

DPW Supt. T. C. Brien recommended that the department purchase the tank and do the installation work, in view of desired expediency since the tank is now almost empty.

Traffic Death Rate Reduced Last Year

Final figures show that Michigan had 363 traffic deaths in 1961, a reduction of 41, or nearly three per cent, according to the annual report of the State Police.

This was the first decrease in three years.

The three-month total of 199,973 was 9,751, or nearly five per cent, less than 209,724 in 1960. The number injured set a new record high of 83,350, however.

The reductions in deaths, death rate and accidents followed a decline in the first half of the year, despite a slight increase in exposure factors: Estimated mileage rose three-tenths of one per cent to 31.5 billion, while the number of registered vehicles, 3,296,736, and licensed drivers, 4,128,111, represented one per cent gains. All were new record highs.

Fatal accidents totaled 1,369, a reduction of eight, or less than one per cent, under the 1960 count of 1,377. Rural trunklines had 23 fewer fatal accidents and urban areas had an increase of 82.

Similarly, there were 59 fewer accidents on rural trunklines and 37 fewer in urban areas, while rural county roads had a gain of 47. The BPR's final tabulation of injury attributed in part to the broader injury definition used in accident reporting since January 1, 1960, which now includes complaint of pain and momentary unconsciousness.

Freeway Mileage High in Michigan

LANSING—For the second consecutive year, Michigan has led the nation in the construction of interstate freeways, the U.S. Bureau of Public Roads (BPR) reports.

The BPR's final tabulation of Interstate projects in 40 states and D. C. District of Columbia, showed Michigan awarded contracts for construction of 182 miles of Interstate freeway during 1961.

The BPR report also showed Michigan ranked third in construction behind California and New York in the total dollar volume of highway construction projects placed under contract in 1961.

California awarded contracts totaling \$34 million followed by New York, \$33.82 million and Michigan, \$212.9 million.

Local Executive Talks to Bankers

Two of three new car buyers want and need full size automobiles, a General Motors executive told members of the American Bankers Association meeting in Chicago this week.

James J. Koche, 425 Dunston Road, Bloomfield Hills, GM vice president in charge of the Distribution Staff, said during 1961 full size cars accounted for 64 per cent of total market, while smaller U. S. cars represented 50 per cent and foreign makes 6 per cent.

He said demand for personalized transportation and the widening range of individualized tastes and needs, he said.

He cited the growth of the industry and told the bankers the market currently is excellent.

Following the year of car sales from 1947 through 1950 increased to an average of 4.4 million units, Koche said. Sales for the period 1951 through 1961 increased to 5.5 million and continued upward during the first half of the Fifties to reach an average of 5.8 million cars a year, he said.

"The industry found throughout past years that outstanding styling, superior performance, quality and value, plus good service, are required to win customer recognition."

"Most cars and trucks are sold one at a time to individual customers directly from dealers. No automotive product, however good, can sell itself. It needs a good dealer organization to sell and service it."

Koche said 7 million passenger cars and a million trucks were sold in 1961 and he predicted that this average should be maintained for the first half of the Sixties. He predicted that the sales rate will eventually reach a 6.2 million level between 1965 and 1970.

Planets In View

ANN ARBOR—The planets are returning to view, according to a University of Michigan astronomer.

"Since the beginning of February, Venus, Jupiter, Saturn, Mars and Mercury—were so nearly in line with the sun that they could not be easily seen," explains Associate Prof. Hazel M. Losh.

However, Mars has now moved to the east of the sun, and it will remain in the western twilight for the next several days.

"By the end of March, it will be more than a hour behind the sun, and its starry glow in the western sky," Professor Losh says.

In the morning, Jupiter and Saturn make their appearances low in the southeastern dawn. By the end of the month, Saturn will be visible for about two and one-half hours before sunrise.

"Jupiter, much brighter than Saturn, will rise about an hour before the sun," Professor Losh notes.

Birth Rate Declines In State Last Year

Michigan's birth rate continued a four-year decline in 1961 according to provisional figures released today by the Michigan Department of Health.

There were 191,638 births reported to the health department's statistical methods section last year—a 2,259 fewer than 1960, giving the state the lowest yearly birth rate per 1,000 population in the last decade.

The number of deaths also decreased during 1961, with a total of 67,168 reported to the Health Department—319 less than 1960.

Excluding immigration and emigration, Michigan showed a net increase of 124,470 during 1961.

Rouge Basin Study

Information studies delineating the flood plains of the Rouge River have been requested through the U. S. Corps of Engineers by the Executive Committee of the Detroit Metropolitan Area Regional Planning Commission.

The University of Michigan was the top recipient in fiscal 1961 of Defense Department research contracts among the nation's colleges which do not operate federal facilities.

Ask Lease Arrangement For Use of Palmer St.

Should a private enterprise be permitted to use a non-traveled public street for storage purposes? No, said Commissioners Carl F. Ingraham and Ralph A. Main at Monday night's Birmingham City Commission meeting.

Yes, under the circumstances, said Commissioners Robert Pace, William E. Roberts and William H. BURGUM.

Michigan Panel Components Co. sought permission to continue using a portion of Palmer St. extending east from S. Eton, to store wall panels.

But, said Assistant City Manager R. S. Kenning, the current use was against city regulations and presented a possible fire hazard. The equipment stored in the street constituted an obstruction to the fire access lane.

He also pointed out that street parking regulations were not fulfilled.

THE COMPANY's suggested that it be permitted to continue using

the street, with a 16 foot wide lane retained in the center of the 52-foot roadway as an access lane for fire trucks.

Another suggestion was that the northern portion of the street be used as the access lane.

Kenning said the latter suggestion would be more acceptable but said the fire lane should be at least 20 feet wide. He recommended, however, that the petition be denied.

Ingraham contended that permitting private use of the street—although permissible by ordinance—would in effect set a new policy.

He said he could not justify such use of the street from the standpoint of fire protection and commercial use of public property.

AN EFFORT to reach a compromise and to assure continued location of the firm in Birmingham, Pace moved that the manager's office explore the feasibility of leasing a portion of the

street to the company. Roberts supported it.

The motion passed, 3-2, with Ingraham and Main voting no. Mayor Florence H. Willett and Commissioner Charles Renfrew were absent.

Kenning was directed to meet with the company's attorney to work out details and to report back to the commission in two weeks.

The State Library branch in Escanaba serves 183 public and school libraries in the U. P. plus 100,000 residents without a local library.

LONG — HANIFAN — BLAIR

We the candidates, if elected will implement the following program and provide the city of Troy with mature leadership, and put an end to the present confusion in city government. The program is as follows:

1. Enforce the provisions of the city charter. There must be legal and ethical standards in city government.
2. Provide the mature leadership necessary to unite the citizens and to promote harmony and cooperation within the city. And develop a plan that would give the people of all parts in Troy equal representation in city government.
3. Restore the morale of city employees and dispel their present anxieties.
4. Retain the present city operational tax structure, with no increase. This would be done by setting up a city-appointed policy and advisory group for attracting new industry to Troy and thereby creating a tax base broad enough to finance expanding municipal expenses.
5. Directly promote the school educational program with funds derived from new industry coming into the City.
6. Relieve citizens of the school "overtax" burden.
7. Restore the city to mature leadership and end the confusion in city government by honest and ethical understanding of the people's problems during this period of Troy's growth.
8. Election of the City Commission for the best interest of all the citizens.

We agree, "The function of the Mayor should not be to dominate or ridicule the commissioners and city employees, but to lead, support and provide assistance when required." "Our objective is to keep the City on a sound financial basis."

Promote and support civic programs which provide growth opportunity for Troy's greatest asset—our talented young citizens.

Vote for the slate that is 100% Troy.

LEADERSHIP — ECONOMY — PROGRESS
