

Panels of brilliant color are moulded into a swim suit (left) that gives a slim illusion with the use of long vertical lines. Straps continue the panel color over the shoulders

then plunge to a low, zipperless back. A yoke of polka dots serves to highlight the trim, well-proportioned sheath worn by model on right.

Gay Patterns, Vivid Colors To Make Splash on Beaches

Beaches, viewed from a distance this year, look like kaleidoscopic designs with their many-hued, gaily patterned swimsuits.

Brightly arrayed in the swim picture are twenty-five suits by Oleg Cassini, two of which are shown above. This is the second collection by one of America's foremost designers, and his swimsuits, like his dresses, enhance feminine charms in tasteful ways.

There are varied silhouettes with flattering emphasis on neckline and bodice to give all the enchantment of an evening gown. In fact, it has been said that Cassini's swimsuits are his ball-gowns, executed in sea-

worthy fabrics.

Sheaths are slim-skirted, lean and uncluttered. Maillots are expertly cut to make legs look longer and thighs trimmer. Two-piece suits, with high-cut legs or little-boy shorts, are designed for individual fit and flattery.

Orlon knits and stretch nylons

are favorite fabrics dyed to Cassini's own specifications and combined in striking combinations of mango/orange/yellow, light and shocking pinks, white/blue/green, lavender/blue, cocoa/black/white.

Cassini suits can be purchased in Birmingham at The Sportsman, 184 Pierce.

Spots Out

If you can tell a cleaner what caused a stubborn spot, he'll have a far better chance of getting it out. Many men figure they might as well get a dirty suit dirtier before having it cleaned.

togetherness
\$35.

Steady company pure silk sheath. Jewel neck. sleeveless, tie belt under cotton tapestry cardigan collared coat with 3/4 set-in sleeves. 5 to 15. Blue or banana.
