## "Our basement was hard to heat..."

"Electric heat helped us turn a chilly base-"Electric heat helped us turn a chilly basement into a year-round family room," says Mrs. Horace Johns, of Millington, Mich. "We have electric heat in the second-floor bedrooms and hath, too. Keeps them as warm as the rest of the house—even warmer if we want. We can raise the temperature in any of these rooms without overheating the whole house. One reason overheating the whole house. One reason we chose electric heat in the first place was because it cost less to install. Now we like the convenience of electric heat so much that, if and when we buy another home, we'll have it throughout."

What about your home? Do you have a hard-to-heat room? Are you adding on a room? Are you adding on a room? Are you having a new home? Is the heating system in your present home more trouble than it's worth? One of the types of electric heating units shown below may be the answer to your heating problems, One easy way to find out is to ask your electrical contractor. Another is to call your Edison office. We'll be glad to send you a copy of our free booklet. "Electric Home Heating." and will answer any questions you may have about the modern, worry-free way to heat your home—electrically. What about your home? Do you have a

"INDUSTRIALLY YOURS" would make an appropriate sign-off for a letter to an out-of-state friend. Nearly all the different types of industrial operations in the country can be found right here in Michigan. Close cooperation among industry, our more than 200 industrial research laboratories, and our outstanding educational institutions has been a key factor in developing this industrial diversification. Working together, they continually explore new products, new ideas and new techniques—providing new opportunities for us all.

"SELF-SUFFICIENT" is the word for Michigan in food production. When it comes to variety of farm products, we're second in the nation. We're first in the production of navy beans, pic cherries and cucumbers for pickling. Michigan's modern farmers are busy farmers; more than 45% of our land area is agricultural. And agriculture is a big factor in Michigan's expanding economy. Our state's annual farm income is currently more than \$750 million!

MICHIGAN IS VACATIONLAND—year round. Our many resort and sport attractions make Michigan one of the leading vacation areas in the nation. There's something for everybody's vacation fun here: water sports at our 11.037 inland and four bordering Great Lakes, snowtime fun at our more than 30 winter sports centers...not to mention hunting and fishing, for which we issue more

licenses than any other state. More than \$650 million was spent last year in our tourist, resort and trav-el business, and the figures should grow in the future.

KEEPING UP WITH OUR GROWING STATE'S communications needs—in industry, for the farm and home, and for our busy tourist trade-keeps us busy at the telephone company, too. But we're pround to have a part in helping our state grow even stronger, as Michigan Marches Forward.
