Lori and Brad knew it was offi-

Weiss told them about the three burglars who attempted to break into his home in Detroit and how he caught them. He also showed the children the coveted Civilian Cit-

Use your head when you shop for a "new-size" car

The air is filled with claims about the so-called "new-size" cars—the ones that have finally caught up with Rambler Classic's size, but with little else.

Just use your head and you'll discover sizeable differences. Slide into the front seat and you'll find much more headroom in the Rambler Classic (actually more than Cadillac!). Full and ample room for six big and well-padded 6-footers.

You get better performance because Rambler is ahead in both horsepower and passing power. And any

Rambler owner will tell you how much he saves on gasoline.

Care about quality? Every Rambler has Double-Safety Brakes—of all U. S. cars, only Cadillac has a similar system. Only Rambler gives you Deep-Dip rust-proofing up to the roof. Only Rambler spares you the expense of replacing rusted-out mufflers and tailpipes—Rambler's are Ceramic-Armored.

You can get all the facts at your dealer's. His free car-comparison X-Ray Books make it easy to use your head.
