It happened IOO YEARS ago

IN MICHIGAN, the new mines in the southwest corner of the state were supplying the Union with desperately needed iron ore. And, all over Michigan, beer was supplying folks with sparkling refreshment.

For then as now, beer was the traditional beverage of moderation—light, sparkling refreshment that adds a touch of hospitality to any occasion. Folks in Michigan have always enjoyed the good fellowship that goes with every glass.

TODAY, in its Centennial year, the United States
Brewers Association still works constantly to
assure maintenance of high standards of quality
and propriety wherever beer and ale are served.

Summer Shots a Boon Looking for a job...a home...a greeial service? See the Want Ads. To New Photographers

By ALAN MITCHELL Staff Photographer

One of the finest times of the year for the photographer, both amateur and professional alike, is now at hand.

ANOTHER THING that can be done with shadows is the creation of strange effects and designs. Long shadows cast by tangled trees, especially dead, and wind-blown branches can be extremely useful to give an out- of- thisworld effect.

word effect.

Long shadows also carr be used to create the feeling of day's ed. A good place to utilize this theory is at a factory, shipping yard, or construction scene; anyplace where normally feverish work has come to a halt.

to a halt.

THE BEST TIME to shoot a scene like this is just about half an hour before the sun sets.

A good rule to remember is to get a figure in it, but make sure the figure portrays the mood of

CARE OF YOUR equipment is another important thing with sum-mer photography. It seems that your equipment will get very dirty in just a short time in the summer, when the summer is the summer of the summer your constraints of the summer of the One reason is that the equipment is used more in the summer by the annateur photographer. There is much more dust and fine particles of dirt in the air in

the summer, and thirdly, you have a tendency to lay your equipment on the ground more.

year for the photographer, both amateur and professional silke, is now at hand.

You have no doubt noticed that the sun is high in the sky many days of this season, and than means that there will be plenty of light that the same and the remembered, however, with summer shooting fun. I will give you an idea of what they are, how to watch for them, and how to correct them before they happen.

ALONG WITH the sun comes one minor problem — shadows. Shadows can be a definite hinderance to the photographer, but they are also a necessity, and if properly seed, cun be very helpful, effectively to create a mood. For instance, if you want to pick offer. Lively to create a mood. For instance, if you want to pick offer. A hat placed on the head and the thorized to take the figure so that the shadows are to be for your shoot. There are bong and covering the face.

A hat placed on the head off the hat is placed so the shadows fall over the eyes.

ANOTHER THING C.

a camera is just a complicated version of a magnifying glass, and if properly aimed at the sun. can have a disasterous effect on a shutter, especially a cloth focal plain shutter. It will very easily catch on fire and quickly ruin the camera.
