You never sliced it so good! Rip tomatoes, toast bread, overdone roasts are no problem to slice as thin as you want with a Robeson Flame Edge Knife. That's because:

One side of the cutting edge is tungsten carbide, the hardest metal known, formed on steel at 10 times the speed of sound, at a temperature of 6000 degrees. As the edge of steel wears away, more and more of the Flame Edge is exposed—more and more of the tungsten carbide's microscopic teeth are bared to keep the knife razor sharp, impervious to heat and acids. Knives individually packaged.

Unconditionally guaranteed by famous Robeson Cutlery!

THE GOLDEN YEARS

By THOMAS COLLINS
"My wife and I came up to my retirement in a nice but modest neighborhood of the city. We had lived there 14 years, and in a radius of five blocks we knew possibly 20 per cent of the people. "We had social contact with not more than six other couples in the area. We had what you would call friendship with one couple. "People reaching 65 nowadays in the cities simply don't have the old, dear friends that warrant their remaining on in their old neighborhood. "This was the primary reason why Mr. and Mrs. George Panwitz moved when the pension came.

MONEY WAS the second reason. "Our home was worth \$15,000. That is too much money to be tied up in housing when your retirement income is \$240 a month at 4 per cent this \$15,000 represented \$600 a year. Taxes were \$20 and insurance \$50. My pension ran \$200 a year. This totaled nearly \$100 a month."

But there were other serious costs. Mrs. Panwitz said: "You somebody mentioned once that certain costs become a neighborhood for you live in a neighborhood for the rest of your life. This indeed true in our 14 years in our home, our contributions to that and that had grown from nothing about \$300 a year to \$30 a month."

And, said Mr. Panwitz, there is the matter of city taxes which went up rising and the more serious matter of a changing neighborhood. The Panwitzs, with two married

children already living far away, and with no major ambitions for retirement, took a map of the U.S. and studied it for several weeks. They decided California, Northern Missouri, Virginia, and Middle Florida were the best prospects for a retirement home. Over a small period of two years they visited all four, then settled on a small town in Missouri.

"WE BOUGHT an old frame house with 10 rooms for \$6,800. Foolish? No. There was all sorts of labor to put it in good shape. Lumber was cheap and nearly every installation, from both tubs on, was picked up second-hand. Both of us have worked hard, but we have made a cash out of less than \$1,400 and we have a fine, big home."

Of the 10 rooms, four are downstairs, including kitchen, dining room, living room, and a "day room" with two cots where the Panwitzs take their afternoon naps. Upstairs are the Panwitzs' bedrooms, one guest bedroom, a "His" workshop, a "Her" workshop, and a "Their" room.

"The 'Their' room is their main recreation. Here they refinish and re-polster furniture together. When they left their city home they sold everything that wouldn't fit into the back of their station wagon. They refurbished their six livable rooms in Missouri by going to auctions and running the countryside buying secondhand furniture. Reclaiming what they bought has become virtually a profession in their retirement.

Their "Mistake" room holds things they've bought and haven't yet figured out how to reclaim.
