A request to the Birmingham city commission by the Graefield Co. to change the present zoning classification of B-1 (office use) to B-2 (retail business) of four lots on Southfield north of 14 Mile has been referred to the Plan Board for further study and recommendation.

In a letter to the commission Frederick K. Graf, owner of the property, said that if the proposed change was approved he would hope that the land could be taken off the "tax roll."

He noted that in the past few years an effort to find acceptable tenants for office space use had been unsuccessful, since that numerous requests for retail use had been received.
