

Local Dentist Appointed to State Board

Dr. Fred A. Henny, 3218 Broadway, Birmingham, has been appointed by Gov. John B. Swainson to the Governor's Advisory Commission on Health Care.

The Commission is charged with reviewing the findings of an earlier study commission on prepaid hospital and medical care plans. In making the announcement of the appointment, Gov. Swainson said the Commission would be asked to find ways to implement the first report.

An immediate past president of the Michigan State Dental Association, Dr. Henny is director of dentistry and oral surgery at Henry Ford Hospital. He represented the dental association at hearings held by the study commission on prepaid hospital and medical care plans. An oral surgeon, Dr. Henny has been long active in programs related to hospital dentistry.

The 25-member commission will be chaired by Durward B. Varner, chancellor of Michigan State University's Oakland branch.

DR. F. A. HENNY

CON-CON REPORT

Inter-State Cooperation Improved

A new section in the General Government Article of the proposed new Michigan Constitution recognizes the emerging problems involved in cooperation between this state or its political subdivisions with one or more of the other states, the Federal government, the Dominion of Canada or any of their political subdivisions.

This new section would permit the state or any of its political subdivisions to enter into working agreements with other units of government for the performance, financing or execution of their governmental functions.

It was pointed out in the recent

Constitutional Convention that compacts and working agreements between various governmental units have become an increasingly important part of the American political system within the past 25 years.

COMPACTS BETWEEN the states, which require the consent of Congress under the Federal Constitution, have existed since 1789, but in recent years they have become far more important than formerly. They deal with such matters as flood control, navigation, water conservation, protection of wildlife and game, harbor de-

velopment and regulation and a variety of other subjects.

Interstate compacts may be viewed as at least a partial answer to the inability of states to deal with certain questions which extend beyond their own borders and which would otherwise have to be delegated to the Federal government.

Compacts between one or more states and the Federal government are also growing in significance. Again, they are a successful device for preserving, in part at least, the authority and sovereignty of the states in matters which have national sweep and significance.

The whole area of grants-in-aid falls generally in this category. So does State-Federal cooperation in the field of atomic energy and in waterway development in the Great Lakes and the St. Lawrence seaway.

In this last instance, cooperation with the government of Canada has been necessary to the successful execution of state and Federal functions.

THE FRAMERS of the proposed new Michigan Constitution foresee the probable necessity for even closer cooperation among this state, the Federal government and Canada in matters relating to defense, commerce and navigation. Hence, this section of the new document specifically recognizes such agreements when the state authorities so decide.

The convention was aware that a

such agreements, under the Federal Constitution, are subject to the consent of Congress, a point covered by the new section in the phrase "subject to provisions of general law."

The proposed section permits any officer or employee of the state or any of its political subdivisions to serve as a member of joint governmental bodies, but the legislature is empowered to impose such restrictions and limitations as it deems appropriate on the service of the officer or employee.

Luce County, which was organized in 1887, was named after the Honorable Cyrus G. Luce who was Governor of Michigan from 1887 to 1890. The last census shows it has a population of 8,147.

Local Resident At Los Angeles Engineering Confab

Francis J. Sehn, 3515 Brookside Drive, Bloomfield Hills, is attending the 1962 Western Tool Exposition and Engineering Conference of the American Society of Tool and Manufacturing Engineers in Los Angeles.

Sehn, president, Press Automation Systems, Inc., Detroit, is third vice president of the 41,000 member international society.

The ASTM meeting will include a \$5,000,000 display of machines, machine tools and accessories in the Pan Pacific Auditorium and an engineering conference at the Ambassador Hotel.

GOP Names Area Schedule Coordinator

Republicans are being urged to call GOP headquarters in Birmingham to list all area activities for the month of October, according to County Chairman Charles L. Lytle.

"We have appointed Paul Spagnola of 1855 Villa, Birmingham, as our Schedule Coordinator," Lytle said, "and we need the cooperation of all our Republicans to help make the program a success. We are asking them to call our Headquarters with the October schedule of their clubs or any area service club so that we can make contacts for our Republican candidates from the local, county and state levels to visit the meetings," he added.

"This is an important phase of our campaign in that exposure of Republican candidates helps to give the people a better chance to choose the person for whom they will vote on November 6," Lytle concluded.

Spagnola, 33, a teacher of Civics and World History at Anderson Junior High School in Berkeley and member of the GOP Education Committee, can be reached at his home after 3:30 p.m. on weekdays or by contacting Republican Headquarters.

A bulletin board has been hung on the wall of the meeting room at Headquarters and will list all the activities as they are called in.

Oakland Girls Scheduled for County Visits

"Oakland Girls," comprised of young Republican women from the ages of 16 to 30, expect to add a little glamour to the campaign trail of all county GOP candidates this next month.

At present the girls are scheduled for Thursday and Friday evenings from 7 to 9 p.m. and on Saturday afternoons to appear at county shopping centers. Their first stop will be at the Pontiac Mall and Miracle Mile this Friday.

First initiated during the 1960 political campaign, the "Oakland Girl" program was set up as an adjunct to regular party activities in an effort to lend a little glamour to special events and meetings. Dressed in blue and white and red and white dresses with white sashes, "Oakland Girls" are coordinated through Oakland County Republican Headquarters and are scheduled by their Special Events committee.

County to Conduct First Aid Classes For School Drivers

Two or more classes will be necessary to meet the response of Oakland County School bus drivers to the announcement of an Oakland County Board of Education course in first aid.

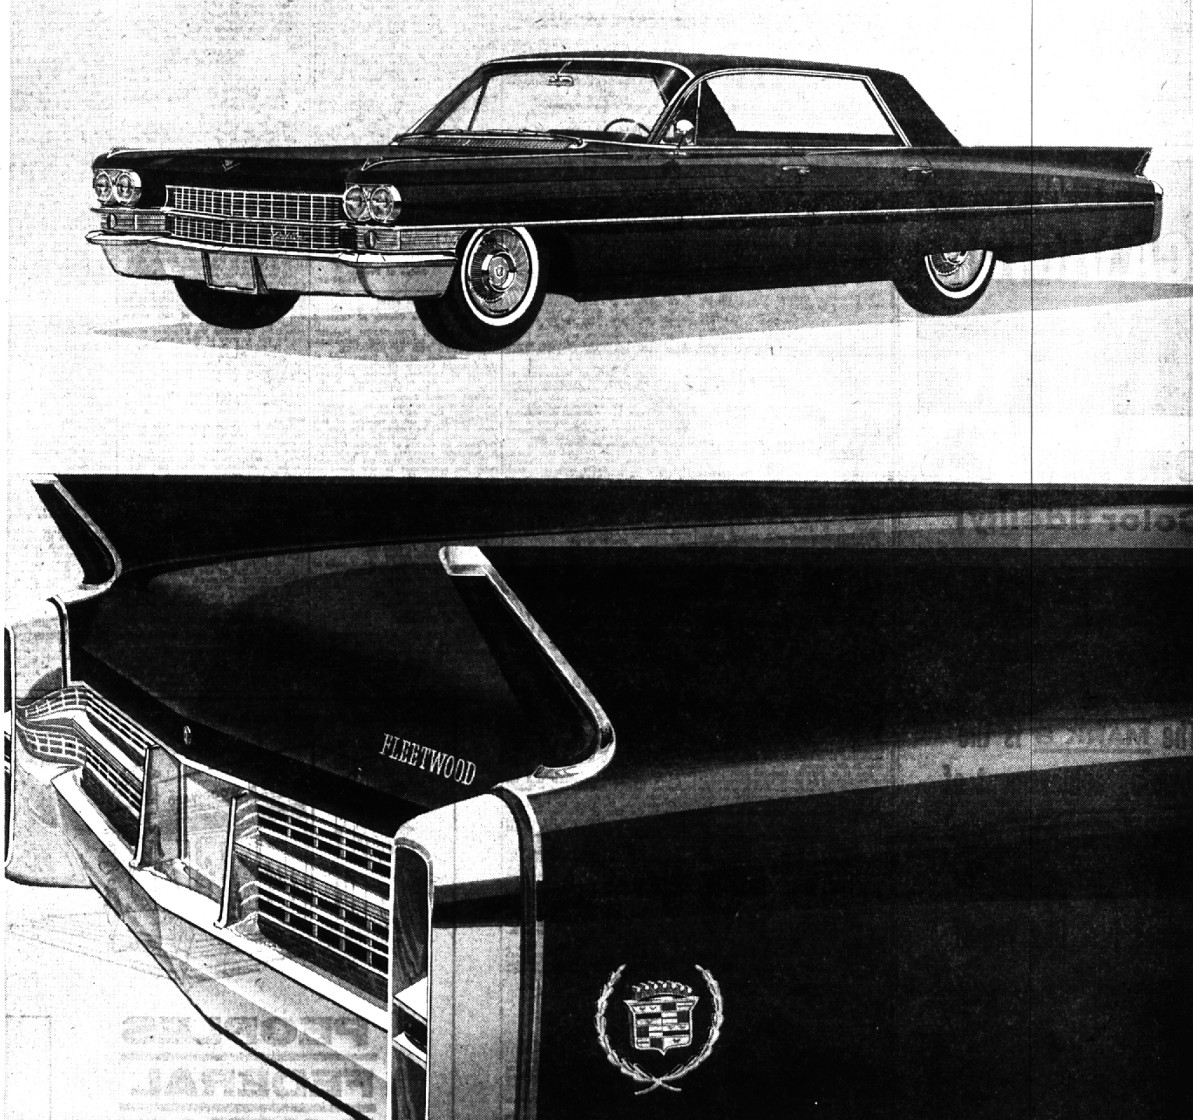

One class was originally scheduled for the course, which will be held October 3, October 10, and October 17. But 81 reservations have been made so far, said County Director of Transportation, Edwin J. Hendershott. He said that additional sections would be added to take care of the demand.

The course was set up initially in response to the demand of school bus drivers. It is entirely voluntary and the drivers will not be reimbursed for their time and expense.

Classes will be held from 7 to 10 p.m. at the County Board of Education offices. Trooper Larry Miller from the Pontiac Post of the Michigan State Police will instruct one section. Other instructors will be named later, Hendershott said. A repeat course will be offered in March.

Off to Texas

Airman Basic Robert L. Norris, son of Mrs. Elfe J. Norris-0616200 Kinkshire, is being reassigned to Amarillo AFB, Tex., for technical training as a United States Air Force administrative specialist.

CADILLAC—A NEW STANDARD OF EXCELLENCE IN 1963

This is the look of leadership for 1963—bold new elegance of design and brilliant new excellence of craftsmanship and quality.

More than one hundred and fifty major advancements embrace every aspect of exterior and interior styling . . . body construction . . . chassis design . . . and appointments. And the most improved engine in fourteen years resides beneath the sweeping expanse of hood. All this, together with a unique new true-center drive line, makes the 1963 Cadillac smoother, quieter and more efficient than ever.

There are twelve new models in 1963, including two dramatically styled coupes, the distinguished Sixty Special and the world-renowned Eldorado. Each has the widest choice of exterior colors, fabrics, leathers, appointments and personal options in Cadillac history.

There is a very easy, quick way to confirm all this. Visit your Authorized Cadillac Dealer for a firsthand inspection and for an hour behind the wheel.

Why not do it this week? We know you'll agree that in 1963 Cadillac sets new standards of excellence.
